Catholic Conversion of Africans—English Press on American Action with Respect to Cuba—Interference Looked Upon as Exemption of England from Responsibility to America—The Byron Scandal—Napoleon's Condition Satisfactory.

(By Telegraph to the Pittsburgh Gazette.)

GREAT BRITAIN.

LONDON, September 10.—The *Morning Post* says the Pope is about to make great efforts to convert the negroes of Africa. Two hundred of them are now studying for the priesthood.

The *Times* has an article on the subject of Sickles' note to the Spanish Government, in which it says: "It is hardly credible America contemplates the recognition of Cuba, while Spain has little to lose except the island. Owing to the confusing prospect of the war and its damaging effects on her commerce and finance, he admits she must abandon Cuba."

The *Telegraph* has an article on the same subject, and says: "The American action with respect to Cuba is the same that England was much blamed for, though the causes are not precisely parallel. The Cubans are absolutely without strength, without a civil or military organization, and without an established government. If the Americans vindicate their action by the plea that they cannot remain indifferent to struggles of a friendly people for freedom and independence, then England in half-hearted in a manner the Americans now sanction. Looking at the controversy in its broadest view, we shall scarcely be displeased to see America take a step which the practical world would regard as a complete acquiescence of England from responsibility to America."

The *London Times*, to-day, has an editorial on the result of the international rowing match. The writer asks if the admission of the coxswain does not counterbalance the weight of the boat. If not, the American system of rowing is the best. He regrets that the question was untried, but answers that the Harvards have no advantage over the Oxfords. With a coxswain they lost in steering; without one they would have lost more. He hopes if the return match is accepted, both crews will row in their own fashion. If that course had been followed in the late race it would have been quite as fair and more instructive. He considers Oxford, however, to pick holes in a race so well contested and so gallantly won.

A meeting of Americans was held at Langham's yesterday, and resolutions were unanimously adopted, thanking Prince Napoleon for his recent speech, especially that passage in reference to the advantage of a democratic government in the United States.

The excitement in regard to the article by Mrs. Stowe on the subject of Lord Byron has not abated. The newspapers still teem with correspondence on the subject.

A letter in the *News* this morning says: In no instance in history have any one told a most unpalatable truth and repented of his handiwork when the first flush of indignation subsided. All thank the author and publisher for telling the truth. Mrs. Stowe unveiled a secret formerly carefully guarded by a few, and restored virtue and vice to their proper places. In future it will be remembered that by her device there is one less impostor in the world.

John Bright says, in a letter, that the good harvest will tend to restore health to the general trade of the country, and when we have a sufficient supply of cotton, Lancashire will recover from her distressed condition. It is more cotton that we want, and not more taxes on imports. I suspect that the people of Lancashire will not fail to understand this.

Mr. Wentworth writes to the Pall Mall *Gazette* to-day in the matter of the Stowe-Byron scandal. He says Lady Byron's statement, in her own handwriting, does not contain an accusation against Mrs. Stowe. "Mrs. Stowe's story is consistent with Lady Byron's letters." Mr. Wentworth concludes his letter with the following words: "I cannot allow that Mrs. Stowe's statement is substantially correct."

The *Times* has another article to-day on cotton, trade and supply. It says there was a time when intelligence of a good supply of cotton in the United States would have carried satisfactory assurance to the manufacturers and workmen of Lancashire. The sudden destruction of the old cotton trade has been attended with the destruction of the old conditions. Things are no longer as they were, though the cotton supply has come back again. Fields and factories have been opened—some under the shelter of protection, and some in a more natural atmosphere. The more extensive demand for the raw material raises the price, and that rise deprives us of the condition essential to the superiority we once maintained.

The *Daily News* in an article to-day on the Cuban question says: "The rumor is afloat that the proposed purchase of Cuba by the United States found a powerful friend in the Spanish administration. It is difficult to perceive if the rebellion is suppressed in Cuba, how a material change can be effected amid a defiant and subjugated population. If the rumors have any foundation, then considerations may possibly incline their powerful leader to listen favorably to an offer from the United States, though his advocacy may obtain great force with the other members of the Government and the people. The interests of England and France in the West Indies are scarcely inferior to those of the United States and they will have their say before the settlement be regarded as final.

The *Opinione Nationale* demands the immediate completion of the *Status Consultum*. Fears are entertained of the early return of the Emperor's weakness, which fact makes it extremely important that the Constitution of the Government shall be well settled. Without this, revolution is certain in the event of any change of sovereign.

The Emperor arrived in the city at five this evening. He visited the boulevards by the Rue de la Paix and returned to St. Cloud by Champs Elysees. The Empress accompanied him.

TURKEY.

CONSTANTINOPLE, September 10—The frontier question between Turkey and Persia has been satisfactorily arranged. Formal ratifications will be exchanged by the two Governments as soon as possible.

PARIS, September 10.—It is reported the Khedive of Egypt has submitted to the Sultan on all points except in the matter of budget loans. The great powers of Europe will bring a strong pressure to bear on the Sublime Porte against pushing matters to extremity.

FRANCE.

PARIS, September 10.—The Lamberto Polar expedition is unable start for the want of funds.

The official papers have announced that the condition of the Emperor is satisfactory. He has asked the consent of his physician to go out into the open air.

It is considered probable that the Empress will undertake her journey to the east in a short time.

SPAIN.

MADRID, September 10.—The disturbances have been quelled. The city and country are now tranquil. The proposition for continuing the Regency of Marshal Serrano for three years longer is gaining ground.

PRUSSIA.

THE HAGUE, Sept. 10.—The statistical Congress has opened session here. Samuel B. Ruggles of New York, and the other deputies were received by the King.

SCRANTON, PA.

The Avondale Disaster—Funeral of Forty-three Miners—Who is to Blame.

(By Telegraph to the Pittsburgh Gazette.)

NEW YORK, September 10.—A Scranton dispatch says: Mr. Benjamin Hughes is quite satisfied that no more bodies remain below, and in this opinion he is endorsed by the best authorities. Nevertheless, to satisfy everybody, the work of search, though temporarily stopped, for thoroughly ventilating, the exploration will be carried on again to-morrow, with additional gangs of men, and every possible nook and corner explored.

The funeral of forty-three miners today was an event of unusual impressiveness. A solemn requiem was tolled by the city bells; flags were hung at half-mast; stores were closed; the principal streets deserted; the numerous locomotives were draped in mourning, and all the working population of Scranton appeared to have betaken themselves to Avondale. On one train of thirty-seven platform cars, carrying three thousand five hundred passengers to the late disaster, so great was the rush that two men were knocked off the cars and cut to pieces. The throng at Avondale was immense and extended down the railroad track for miles. A vast majority of those came purely from motives of curiosity. There were hundreds of women dressed in costumes more befitting a picnic than a funeral, and among many of the men there was a levity and rudeness of manner better adapted to the neighborhood of a prize ring than a solemn scene of such grief.

A great deal of controversy is going on in town on the question of who is to blame for the present inefficient way of ventilating the mines and giving protection to the miners. One side insists that it is the miners who are to blame, for if they chose to say: We will not work in any mine which is unprovided with means of escape in case of accident to the shaft, the owners of the mines would quickly see that it was to their interest to adopt the proper precautions against the dangers that are now so apparent. The miners, they say, will take the risk of working anywhere provided they are paid, and are utterly indifferent to palpable danger as the sailor who goes to sea in a leaky shi

THE CAPITAL.

(By Telegraph to the Pittsburgh Gazette.)

WASHINGTON, September 10, 1869.

ADMIRAL PORTER.

Vice Admiral Porter returned to Washington to-day.

SECRETARY OF WAR.

General Sherman was yesterday appointed Secretary of War, *pro tempore.*

APPOINTMENT BY THE PRESIDENT.

The President has appointed James M. Clark Judge of the District Court of Rhode Island.

EXPENSES OF DEPARTMENTS.

The warrant books of the Treasury Department shows the expenditures of the Government for the fiscal year just ended were less than $585,000,000, as against one thousand and seventy millions for the year before, and nearly as low as 1865. The actual expenses of the military branch of the War Department during the fiscal year previous to the one ending June 30th last were $29,000,000, while for that year they were not quite $80,500,000.

The Navy Department expenses for the year ending June, 1868, were over thirty millions, while for the last fiscal year they have reached only about twenty-three and a half millions.

The expenses of the Treasury Department proper were increased nine millions, while those of the Interior Department have gone up from twenty-eight millions to thirty-six millions. The above exhibit will be made in the forthcoming official report of the Treasurer of the United States.

THE HUDSON BAY AND PUGET SOUND COMPANIES.

The Commissioners under the treaty between the United States and Great Britain, of July, 1863, for the settlement of claims arising out of the Oregon treaty, have been in session sometime in this city, deliberating on claims presented to them, which claims amount to $1,393,762 in gold, for Hudson Bay Company, and $1,-185,000 in gold for Puget Sound Company. They have pronounced awards in favor of the Hudson Bay Company of $450,000, and of the Puget Sound Company of $200,000. It is considered satisfactory to find that in so complicated and so long continued a national dispute the Commissioners of the two governments have been able to accord an opinion. The Hudson Bay Company and Puget Sound Company are required by the award to release the United States all the possessory rights belonging to them in Oregon and Washington Territories, which were the subject matter of their respective claims against the United States.

AWARD OF COMMISSIONERS.

The Commissioners for the settlement of the claims of the Hudson Bay and Puget Sound Companies have made their awards to those Companies, which surrender all their territory rights to the United States in Washington and Oregon Territories.

THE LATE SECRETARY OF WAR.

A plaster cast of the face of the late Secretary of War, General Rawlins, was taken to day at the Congressional Cemetery, by Fiske Mills, of this city. The body was brought from the tomb and placed under the archway of flags erected at the entrance, where the cast was obtained.

MRS. GEN. RAWLINS.

Accompanied by her parents, the three children of her deceased husband, Gen. Rufus Ingalls and others, left here today for New York.

RECEIPTS OF CUSTOMS.

For week ending on the 4th inst. were $14,242,705.

REVENUE RECEIPTS.

Internal Revenue receipts to-day $936,-433.

NEW YORK CITY.

(By Telegraph to the Pittsburgh Gazette.)

NEW YORK, September 10, 1869.

President Grant arrived this morning, and is stopping at his brother-in-law's, Mr. Corbet's, in Twenty-seventh street, where he will remain some days. The President's family is with him.

Nathan C. Kingsley, charged with defrauding the internal revenue, has been discharged by Commissioner Shields, the Government failing to make out their case.

H. B. Matteson, a former Internal Revenue officer in this city, who with other officers is charged with embezzling checks for $7,700 paid for Internal Revenue, came from Venango county today, voluntarily surrendered himself and was held in $5,000 to await examination.

Andrew Webber, a builder, was fatally and five workmen less seriously injured, by the fall of a large pile of bricks on Forty-seventh street, to-day.

Subscriptions for Mrs. Rawlins now exceed $37,000.

President Grant, Mr. Corbin and Secretary Porter visited the Fair of the American Institute this evening.

The billiard table manufactory of Kavanagh & Decker, at the intersection of Canal and Centre streets, was destroyed by fire to-night. Loss $9,000; fully insured.

Terrific Gale at Providence—Lives Lost and Property Destroyed.

(By Telegraph to the Pittsburgh Gazette.)

PROVIDENCE, September 9.—The gale last evening from four o'clock was the most severe known since 1855, when the city was partially submerged. Several lives were lost in this city.

The Hartford Railroad depot was demolished, Rose & Walker's tannery was partially blown down, the Oriental mill unroofed and two operators badly hurt. Chestnut street church steeple was blown down and nearly all the other church steeples injured. Probably one hundred buildings were unroofed and fruit and shade trees destroyed. The Bristol Railroad will not be passable for several days. Many vessels are ashore in Narragansett and Mount Hope bays. A small new church on Narragansett Point was entirely demolished. The sloop Resolution went to pieces in Wickford harbor and two men were lost. Octarian Rice was killed on his farm in Warwick and great damage is reported in Bristol, East Greenwich, Pawtucket, Fall River, and other places.

LATEST FROM CUBA.

Account of the Battle at Los Tunas.

(By Telegraph to the Pittsburgh Gazette.)

WASHINGTON, September 10.—Letters from Cuba via Key West, received yesterday, give the following account of the battle near Los Tunas on the 16th ult:

A reconnoitering party was sent out by General Quesada, numbering three hundred men. On the afternoon of the same day this force was attacked by largely superior numbers, but succeeded, with the loss of fifty-five killed, wounded and missing, in regaining the main body. The commanding General immediately prepared for an attack, which did not take place until the 18th. On the morning of that day General Valmaseda was reported as approaching with a large force of cavalry, artillery and infantry, and preparations were immediately made to receive him. Shortly after sunrise the Spanish forces made their appearance and immediately commenced the fight with artillery. The artillery made but little impression upon the Cuban army, when the infantry were brought up and a charge upon the Cuban position was ordered. The Cubans reserved their fire until the Spaniards came within range, when the order to fire was given, and it was so effective that the Spanish line was thrown into disorder and compelled to fall back under the protection of the artillery. After some hours the attack was renewed by Valmaseda's entire force, numbering, as reported by deserters, over 4,000 effective men, more than half regular troops. The Cuban force was about 6,000, of whom 4,000 were well armed. The contest lasted five hours, when Valmaseda was forced to give way and fell back on his fortifications at Los Tunas.

The loss of the Cubans in killed was seventy-two, among them several officers whose names are not given; wounded, one hundred and seven; slightly wounded, one hundred and fifty; missing, forty-seven; while that of the Spaniards is reported in killed and wounded over six hundred. Two hundred of their dead and wounded were left on the field. There were nearly four hundred deserters and two hundred and seventy prisoners captured.

The deserters report that Gen. Valmaseda had all his available force in this engagement, and had thirty-two pieces of artillery of the most approved character, six of which were twenty-four pound rifled Parrot guns, with two regiments of cavalry and six brigades of infantry. The Cubans had only thirteen pieces of artillery of small calibre, with no effectively equipped cavalry.

The result of this battle, which has been the first of importance since the commencement of the revolution, causes great rejoicing in the Cuban army, and among those on the Island who sympathize with their movement.

A letter from Havana states that the Government exercises the most rigid surveillance over the telegraph and mails, so that nothing is permitted to be sent by telegraph giving accounts of military operations excepting that furnished by the Government. Every private dispatch passes through the hands of the Spanish officials.

The letter says the Captain General is in constant dread of the volunteers, and fears they will drive him out, seize the government and declare the Island independent of Spain. General Lesca, who has been here for some time, is known to be in the interest of the volunteers. Outrages increase fearfully, and are of a character too revolting to be believed.

HAVANA, September 10.—A court martial is now in session in this city, engaged in trying Col. Udalta, who was Lieutenant Governor at the beginning of the rebellion.

The *La Fresca* thinks the best plan is to say less regarding the selling of contraband steamers from northern ports, but catch them off the coast of Cuba.

The Woman's Suffrage Convention

Re-assembled yesterday in Chicago Mrs. Bishop, of Minn., made an hour's speech on the wrongs of her sex in that State. She was not in favor of woman suffrage; intemperance and other great evils were abroad in society, and the men refused to abate them. If woman would assert her moral rights in their fullest extent, and obtain her proper position in society, the ballot must come sooner or later. Mrs. Susan B. Anthony did not think with others the suffrage was a question for the States to settle separately, but that the time was coming when Congress would pass a general law granting to every woman in the land the right of suffrage, and the laborer in the cause should aim at nothing less than this. She said Horace Greeley a few days ago bluntly said to her, "Well, I don't know but what we must come to it. I rather expect the women are bound to make the infernal thing go anyhow." A resolution offered by Lucy Stone, regarding the extention of the franchise "as a new application of the principle that all political power inheres in the people," and denouncing "every form of political aristocracy, whether based upon property, nativity, race or sex," was debated at length, and finally withdrawn. Most of the speakers insisted they were assembled as a Woman's Suffrage Convention, pure and simple, and all issues beyond that were not germaine. A resolution was adopted urging the formation of Woman Suffrage Associations in every State, county, town and school district, the holding of meetings, issuing of tracts, &c. The Convention then adjourned till evening.

Relief for Avondale Sufferers.

(By Telegraph to the Pittsburgh Gazette.)

PHILADELPHIA, September 10.—The Commercial Exchange has voted $2,000, and George W. Childs has given $1,000, for the relief of the Avondale sufferers.

—In the celebrated case of Connolly vs. Woolrich, before the Court of Appeals, the judges delivered opinions at great length. Chief Justice Duvall and Judges Molkey and Badgley were in favor of plaintiff's pretension. Besides a large amount of money, $300,000, were involved. Their decision is that the original Indian marriage is binding, thus rendering the children by that marriage legitimate, and those of the second white wife, illegitimate. Leave has been obtained by defendants to appeal to England and it is expected the case will be carried there.

—The steam planing mill and blind factory of Roberts, Dunn & Co., at Monmouth, Ill., was burned at an early hour yesterday morning. Loss $25,000; no insurance.

—A General Court Martial convened at Santa Fee, N. M., yesterday for the trial of a number of important cases. About ninety officers were present, a number being called who were not on duty in that district.

—At Van Buren, Arkansas, a negro orphan boy, aged twelve, suicided in consequence of having broken a stone jug belonging to a colored family with whom he lived. To avoid punishment, he jumped into the lake.

—The whole Republican ticket was elected in Santa Fee county, N. M. The average majority was two hundred. Sufficient returns have been received to show that Chever, Republican, is elected Delegate to Congress.

—Mr. Archibald was yesterday elected to represent the County of Colchester in the Dominion Parliament. The result of this election gives general satisfaction to the Unionists and proportionate dissatisfaction to the repealers.

—F. Burke, a planter living near Napoleon, Arkansas, was shot and killed while sitting with his family, a few nights since, and instantly killed. The authorities are after Benj. Wing, who is supposed to be the assassin.

—Charles Albright, city editor of the Chicago *Times*, died this morning of heart disease. His death was instantaneous, without a moments warning. He had risen from his bed and while dressing himself fell to the floor and expired.

—The grand jury at Milwaukee have found nine indictments against Adams the forger. He attempted to escape last evening but was recaptured. The trial comes off at the next term of the Court and will develope some strange mercantile transactions.

—Dr. E. J. Eagleman, the notorious robber and confidence man, was ordered to be brought before the Criminal Court at Madison, Indiana, yesterday afternoon, for arraignment, but on account of his illness, and at the request of his attorney, the Court granted him until eight o'clock to-morrow to prepare for trial.

—A series of highway robberies have been perpetrated of late, between Salt Lake and Helena, Montana. Some $40,-000 were taken from a coach and passengers, about a week ago the robbers were followed, and one of them killed and one badly wounded. A portoin of the treasure was recovered. One pursuer was wounded.

—Number 2 passenger train coming west on the Central Ohio division of the Baltimore and Ohio Railroad collided with an extra engine Wednesday night four miles east of Cambridge, Ohio, killing James Guthrie, a freight conductor on the engine, and two others also fatally injured. The cars and machinery were badly damaged.

—The Cincinnati Chamber of Commerce, yesterday, passed resolutions concerning the terrible calamity in the coal mines at Avondale, appropriating five hundred dollars from the funds of the Chamber towards alleviating the distress occasioned, and suggesting that the public authorities should be warned and take measures to prevent a similar accident in future.

—Hon. John Bell died at 2 A. M. yesterday, at his residence, at Cumberland Iron Works, Tenn. He had been confined to his bed for several weeks with fever, but the immediate cause of his death was suffocation. He was too feeble to throw off the accumulated *sputa* in the air passages. His remains will be brought to Nashville for interment.

—The Litchfield *Enquirer* states on authority of a private letter, that an attempt was made to assassinate Hon. N. G. Hollister, Minister to Hayti, at his residence, Port Au' Prince. The rebels have threatened his life before. The letter states that threats have also been made against Mr. Bassil. The report says Mr. Hollister's wound is not fatal, but he lost a good deal of blood.

—S. F. Melrose, *alias* Geo. W. Morton, was arrested at New York Wednesday night for an attempt to swindle Tiffany and others, out of $7,000 worth of diamonds, and for robbing his landlady of jewels. He confessed the intention of entering Tiffany's store, seizing jewels and making off, defending himself against pursuit with a pistol. It is reported the culprit is the Cuban correspondent of the Chicago *Tribune*.

—The Van Buren, Ark., *Press* of the 31st ult. says that in the election for members of the Cherokee legislature, on the 2d of August, the main issue was the endorsement of Col. Downing, chief of the nation, and of course of the delegation at Washington, the Ross party met with an overwhelming defeat—Downing carrying six of nine districts and two-thirds majority in both houses of the legislature.

Additional Markets by Telegraph

NEW YORK, September 10.—The Communipaw injunction case has been dissolved, leaving the Company master of the situation. The arrivals of Cattle today amounted to 1,581 head, to which 200 State beeves are added, making quite as many as butchers will buy; prices are scarcely as good as on Wednesday, but differ a little from Monday; trade slow and owners think themselves fortunate when they escape loss. The very best 9 cwt Ohio grades brought 16c; Cherokees of 5 cwt sold at 12½c. Only 3,000 head of sheep and lambs were received. This morning the market was very firm, and Illinois are selling at full rates. On Wednesday a small lot of 68 pound State lambs brought 9c, with a car of State sheep, 73 pounds at 6c, rejecting 12 culls. Hogs advanced to 13c. Only 23 cars arrived to-day. A lot of 188 pound Michigan sold at 9¾c, 80 choice 340 pound State at 10¼c.

Wheat: No. 2 sold at $1,24½ @1,25, seller month, $1,25 cash and $1,22 @1,22½, seller October; sellers of No 2 red winter at $1,28. Corn easier, at 83¼ @84c, seller month, and 84@84¼c, seller last half. Oats sold at 42½c, seller month; 43c, seller first half, and 41¼c, seller all October. In the evening nothing was done.

NEW ORLEANS, September 10.—Cotton receipts to-day, 976 bales; for the week, 2,692 bales; exports coastwise, 1,043 bales; stock, 2,866 bales; the market to day was easier, with sales of 255 bales; prices unchanged. Flay $28@30. Gold 135¾. Sterling 145½. Other articles remain unchanged.

The Late James Marshall—Testimonials of Respect and Condolence.

At a meeting of the Clearing House Association of the Banks of this city, held September 10th, 1869, the following resolutions on the death of James Marshall, Esq., were adopted:

WHEREAS, By an inscrutable dispensation of Providence, James Marshall, President of the Farmers Deposit National Bank, has been suddenly removed from among us—that reminding us "That in the midst of life we are in death; and

WHEREAS, It is due to his worth and character that we should leave upon the records of the association some tribute to his memory; therefore,

Resolved, That by the death of our friend and colleague, the Clearing House Association has lost a member, whose unblemished commercial honor, and financial knowledge, won respect both at home and abroad; his excellent judgment, stern integrity, and sterling force of character were guarantees to a confiding public that the important trusts which came under his eyes, or direction, could not fail to be safe and successful; and the management of these trusts bore testimony to the soundness of public confidence.

Resolved, That by the demise of this worthy citizen, it is not alone organizations of commerce and public trusts that will suffer from his loss; there is a void in the family circle that cannot be filled —there are broken links in the social chain which time will unite no more.

Resolved, That we tender to his family our cordial sympathy for this unexpected and very sad bereavement.

Resolved, That the Secretary be instructed to furnish them with a copy of these proceedings, and that the same be published in the papers of the city, and also engrossed on the minutes of the Association.

Attest: JOHN HARPER, Pres't.
R. M. CUST, Sec'y.

At a special meeting of the Board of Directors of the Farmers Deposit National Bank, held at the banking house, the following resolutions were unanimously adopted.

WHEREAS, It has been the will of the Almighty, to remove suddenly from our midst our beloved associate and President, James Marshall, who had occupied the position faithfully for over thirty years, imparting unexampled confidence in the institution over which he presided, therefore

Resolved, That in his death, this bank has met with an irreparable loss, we a genial friend, and the community an honest and public spirited man.

Resolved, That we deeply sympathize with the sorrow-stricken family of deceased in this, the hour of their affliction.

Resolved, That a copy of these resolutions be sent to the family and published in the daily papers.

At a meeting of the Board of Directors of the Mansfield Coal and Lime Company, held September 10th, 1869, the following preamble and resolutions were unanimously adopted:

WHEREAS, This Board has learned with the most profound sorrow and regret, of the sudden decease of our late President, James Marshall,

Resolved, That in his death this Board, in common with the entire community among which he has taken so active a part for nearly a half century, has sustained an irreparable loss.

Resolved, That in token of our respect to his memory, this Board and the officers of the Company will attend the funeral in a body, and that the business of the Company will be suspended until after the funeral.

Resolved, That the Secretary furnish a copy of these resolutions to the afflicted family of the deceased and publish them in the daily papers.

A MORNING SUNBEAM.

A nestling in the little crib,
A soft hand laid upon my head,
A gentle whisper in my ear,
"Mamma, I'm tumin' into bed!

"O, no," I said, "'twill never do;
Now shut those little p'epe a tight,
And sleep and dream till morning breaks;
Then you may come when comes the light.

Again a nestling in the crib,
As down to rest my birdie lay;
I listened, for I thought she spoke;
"Hubby up, Light!" I heard her say.

Then all was still. We slept again
Till dawn lit up the eastern sky;
Then sang my birdie sweet and clear,
"Now light has tum, and so hab I!"

RELIGIOUS INTELLIGENCE.

The great revival of religion in the Congregational church at Somers, Ct., commenced some weeks ago, is still going on, nearly two hundred persons having publicly requested prayers in the meetings.

The *Episcopalian*, editorially, demands of the Protestant Episcopal Church, that the Baptismal Office, the Communion Office, the Catechism, which are persistently claimed to teach the Sacramentarian theory, must be revised, and the Apostolic Succession, in short, the whole tissue of priestly character and sacramental grace theory, must be expunged and swept from the liturgy and standards of the Church, as the mediœval rubbish and "old wives' fable" of dark and corrupt ages. It asserts that if these demands are not complied with, then, it says: "We can go forth to the land of promise and freedom."

The Catholic Bishops visiting Rome to attend the grand Ecumenical Council, are severally the bearers of large sums to His Holiness. Bishop McFarland, of Hartford, Conn., left last week for Rome, bearing an offering of ten thousand dollars. Some of the Bishops carry much larger sums. The churches in the New York Diocese made their gifts some time ago, and amounted to, on the part of the laity, thirty-five thousand three hundred and eighty-eight dollars; on the part of the clergy, six thousand two hundred and sixty-one dollars, or a total in a single Sabbath of forty-one thousand six hundred and forty-nine dollars.

The late Missouri Baptist Sunday School Convention appointed a committee to consider the expediency of establishing a denominatio nal Sunday School paper, and of having a uniform course of Sunday lessons.

According to an announcement in the *Christian Advocate*, the twelfth annual session of the National Association of Local Preachers of the Methodist Episcopal Church, will be held in Trinity church, Cincinnati, Ohio, commencing Saturday October 16, 1869. Arrangements have been made with the principal railroads east and west at half fare rates. Delegates from the east and from this neighborhood, will go by the "Pan Handle Route," and Little Miami Railroad, to Cincinnati. Mr. S. F. Scull, the gentlemanly General Ticket Agent of the "Pan Handle" road, has agreed to return delegates free of charge, who have paid full fare going. The kindness of this officer, as the representative of that popular route, is highly appreciated and will be remembered by those benefitted.

The Catholic clergy of Pittsburgh Diocese, by order of Bishop Domenec, are requested to meet at Loretto Springs, for the purpose of attending an informal Synod of the Diocese. At the same time the clergy will engage in making their Retreat.

Sunday, 26th inst., the new Catholic church in Wilkinsburgh will be dedicated by Bishop Domenec. Tickets of admission have been fixed at one dollar.

Dr. Heacock, of Buffalo, is supplying Dr. Scudder's church, in San Francisco, for which he receives one thousand dollars in gold for his service of three months. The opening of the Pacific Railroad will afford a fine opportunity to supply California pulpits with Eastern preachers during the heated term.

From the experience of the owners of several well managed cheese factories, which have eschewed Sunday work and found no pecuniary loss in it, the fact is fully established that there is no need of setting aside the Fourth Commandment in such cases. The *Advance* well argues, suppose it did involve some loss to shut up the factory on Sunday. Is not the Lord's day an institution worth it? And shall Christian people barter it off in this greedy way for a trifle of money—that they might save from their luxuries every week and never feel the loss.

This week's issue of the *Religious Telescope* begins the thirty-sixth volume. Besides being an official organ of the United Brethern Church, and faithful representative of that body of excellent Christians, it has a good record on moral questions like Slavery and Temperance. It is also decidedly opposed to secret societies. We wish the *Telescope* much prosperity.

The Unitarian Society in Teledo, Ohio, has assumed the name of the "First Independent Society," because the National Unitarian Conference, "professes faith in Jesus of Nazareth as King, Lord and Christ, thus making a ritual creed its bond of union."

It is always a sad duty to chronicle the fall of a minister, especially of one who has occupied a high position in the church, and in the affection of his friends. But as the *Advance*, organ of the Church involved in this scandal, calls attention to the melancholy fact, we feel at liberty to state that the pastor of the East Cleveland Congregational church is disreputably associated with a young woman of his congregation, in a nameless crime, and the story is so direct and circumstantial to admit the hope that it is untrue. The *Advance* represents that his reputation was such that a breath of suspicion had never touched, and had an estimable family and a most pleasant home.

It is commonly reported that women are not encouraged to speak in the Fulton street Prayer Meeting, New York. To the credit of the ladies, they don't try to, knowing that they are under the ban of—*the men.*

A correspondent of the New York *Tribune* asserts that the Jews in Utah Territory, termed "Gentiles" in contradistinction to "Mormon," are the best Mormon-haters in that country, regarding the system of polygamy as a regular and impious parody on the ancient customs of their fathers.

It is surmised that the recent work "Credo," published by Lee & Shepard, Boston, noticed not long since, and which caused quite a stir in religious circles, is by the youngest professor in the Boston Theological Seminary, under the auspices of the Methodist Episcopal Church.

A project is on foot, by the ladies of the Metropolitan Methodist Episcopal church, at Washington City, with Mrs. U. S. Grant as President of the organization, to raise fifty thousand dollars, and to obtain this sum they appeal to five thousand ladies to give ten dollars each. Branch committees are appointed for the several States.

Quite an excitement has sprung up in the United Brethren Church, because Rev. B. F. Morgan, of Indianapolis, has been expelled for being a member of a secret society.

Four ruling elders, all the trustees, and thirty-two members of the Reformed Presbyterian church, in Washington, Illinois, have withdrawn and organized an Old School Presbyterian church, because of the Synod's rigid rules on the subject of Church Psalmody.

The American *Churchman* is represented as favoring such a modification of the ordination service, that ministers of other denominations may be received into the Episcopal Church without a positive re-ordination.

It is estimated sixty to seventy persons professed conversion at the Black Lick campmeeting, near Blairsville, held last week. Fifty conversions and twenty-five accessions are reported at the McKeesport campmeeting.

Rev. George P. Hays, of Wooster, Ohio, has received a unanimous call from the Central Presbyterian church, Allegheny city. Mr. Hays is now engaged, we believe, in raising funds to endow the new college at Wooster, Ohio.

GENERAL INTELLIGENCE.

THE head master of the English High School in Boston gets $3,500 the first year and $4,000 the second.

THE Revenue bureau estimates that there are 79,000,000 gallons of whisky in the bonded warehouses of the country.

OVER two hundred delegates of the U. S. Grand Lodge of Odd Fellows united at Omaha on Friday, and were banqueted by local lodges.

THE Chinese are becoming civilized. In California the other day a lot of them, employed as railroad laborers, threw down their picks, crying "We sabee white man's dodge."

A MR. RICHARDSON, residing near Auburn, Ill., brought to market the other day fifteen bushels of pears, the product he said of one tree, and sold them at two dollars a bushel.

THE Kansas Agricultural College is in its fourth year of successful operation. Ladies are admitted and the catalogue shows seventy-three ladies and seventy-nine gentlemen.

THE approximate earnings of the Cleveland, Columbus, Cincinnati and Indianapolis Railway, in August, were, for 1869, $341,783, in 1868, $271,425—an increase of $70,357.

Two hundred and forty-nine horses, Spanish cross-breeds, arrived at Omaha on the 26th ult., on the Pacific railroad, direct from California. They were destined for New York and Pennsylvania.

THE "Sisters of the Stranger," of New York, held their annual public meeting on Tuesday. The society is composed of ladies belonging to the various churches, and is accomplishing much good.

ON Friday evening of last week a train on the New York Central Railroad, consisting of three passenger coaches and a baggage car, made the run between Syracuse and Rochester, eighty-one miles, in ninety-four minutes, running time.

AN important will case has just been decided in Morgan county, Ill., involving property to the amount of $300,000, the jury finding for the plaintiff, breaking the will, on the technical point that a subscribing witness affixed his signature in the absence of the testator.

AT Chicago, on the 8th, three divorces were petitioned for and six granted. In every case, save one, the wife was the petitioner, and the grounds of complaint were drunkenness, desertion and infidelity. Two of the defendants were non-residents.

A BUSINESS firm in Fair Haven, Conn., have posted the following "notice" on the front of their iron safe: "All gentlemanly burglars are hereby notified that owing to the insecurity of this box no valuables are deposited therein, so please not disturb it."

Mr. DALRYMPLE, the great Minnesota farmer, has completed his harvest of two thousand acres of wheat. He has reaped probably fifty thousand bushels, using fifteen reapers and employing one hundred and twenty-five men, who performed the work in nnie days.

IN BALTIMORE a joint special committee of the councils has been engaged in investigating allegations of corruption and fraud in City Hall and other contracts. The committee were occupied nineteen days in examining fifty-three witnesses, whose testimony covered two hundred and seventy-five folio sheets.

MILES GRANT, the Advent preacher, has for sixteen years used no meats, butter, tea or coffee, nor any sugar, salt, pepper, ginger, mustard, horseradish, pies, cakes or sweetmeats. His diet consists of Graham bread, oatmeal pudding, beans, peas, pop-corn, apples, and other fruits in their season. For many years he has not taken a particle of medicine, and proposes never to do so.

To a handsome little foundling, recently left in the hall-way of a station-house in Boston, was attached the following note. "This will certify that this babe was born this 3d day of September, 1869, and is of American parentage. Its mother is a beautiful young girl of nineteen years. She cannot keep it herself, and grieves to part with it. Will those who receive this babe report of its whereabouts, and anything of interest concerning it, to the City Marshal of Charlestown, four times a year?"

LIMBERG CHEESE is manufactured extensively in the town of Hustisford, Wis., by Conrad Wellauer, from the milk of two hundred cows. His product this year, it is stated, will be over 80,000 pounds, which he wholesales at sixteen cents per pound, and ships to all parts of the country. The process of manufacture is similar to that of American cheese, except that the Limberg undergoes a fermenting process, and requires about six weeks to mature. It is put up in cakes of about two pounds weight, and covered with tin foil instead of cloth.

THE Indiana Supreme Court has reversed the judgment in the case of Morgan, convicted at Terre Haute of the murder of Peters, and granted him a new trial. Morgan was sentenced to be hung September 1st, but in order to give the Supreme Court time to act a reprieve was granted until October 1st. The ground of reversal is the admission in evidence of statements made by the murdered man an hour or two after he was shot, and some twenty hours before his death, the defense claiming that it was not known at the time whether the wound would prove fatal or not.

AT the Cigar Makers' International Union, in Chicago, the committee having charge of the subject reported that a person who had been a member of the Kingston Union, having retired therefrom, was denied all privileges of the Union, and held up to the trade as a "rat." A suit was then entered against each individual member of the Kingston Union in the District Court, under the conspiracy act, as conspirators, and they were fined $30 each. The lawyer of the Union has been instructed to appeal to the Supreme Court, and the trial is expected to take place on the third Monday of September inst.

GUMBRIDGE, the fellow who flooded the country with circulars soliciting customers for fac-similes of United States currency, was arrested in New York a few days since and held to answer for carrying on business without license. Upon examination of his books conclusive evidence was found that his annual receipts amounted to $25,000. His business is selling photographs of United States currency, under the pretense that they are counterfeit, and charging avaricious countrymen of doubtful integrity a high price for the same. His mail for one day was found to contain over 2,000 letters with remittances.

HON. HENRY D. BARROW, of St. Croix Fall, Wis., Fifth Auditor of the Treasury, at Washington, recently purchased, partly for himself but principally for Hon. Caleb Cushing, of Mass., 60,000 acres of swamp, school and Agricultural College land, located in northwest Wisconion. The question in regard to the ownership of the water power at St. Croix was recently decided finally in favor of Mr. Cushing, and he has disposed of this water power and considerable other property in the vicinity to a Swedish Company of some five hundred persons. The 60,000 acres just purchased will also be sold to the Swede sottlers.

George Livingston, an auctioneer in the village of Smithville, Wayne county, Ohio, died on the 2nd inst., and a *post mortem* examination resulted in the finding of a bullet in the back of his head, it having entered at the forehead and passed directly through the brain. Ten days previous he had a difficulty with one Valentine Seib, who fired at him with a small revolver, and from the facts developed it seems Livingston then received the injury which caused his death, having in the meantime wandered about, acting as though under the influence of liquor, and when finally taken home was supposed by physicians to be suffering from *delirium tremens*. Seib was arrested and held to answer a charge of murder.

DR. WHITTIER
CONTINUES TO TREAT ALL
private diseases. Syphilis in all its forms, all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes, and which produces some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.
A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.
It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.
The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases, it at can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.
The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A.M. to 8 P.M. Sundays 12 M. to 2 P. M. Office, No. 9 WYLIE STREET, (near Court House,) Pittsburgh, Pa

PITTSBURGH IRON MARKET.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, Sept. 10, 1869.

The metal market is firm and moderately active with a fair volume of business in the aggregate, and prices generally are well sustained. The demand, although not overly urgent, is, nevertheless, up to the supply and with only moderate receipts there is no accummulation of stock. The mills generally are in full blast, and are taking about all the mill iron that is being offered, and there is also a steady demand for foundry irons, particularly the better grades, which sell readily at full prices.

In regard to manufacturerd iron, there are no new or important characteristics worthy of special notice. Orders are flowing in pretty freely, so that there is no complaint on this score, but it is alleged, that manufacturers have little or no margin, even at the recent advance, and it is also claimed that crude irons are relatively higher than manufactured. Following is a report of the sales:

RIVER NEWS.

The river was receding slowly last evening with fourteen feet in the channel. Weather cloudy, cool and pleasant—mercury 71 in the shade.

The Belle, Capt. Sholes, is the regular packet for Parkersburgh to-day, leaving at noon.

The splendid side-wheeler St. Marys, Capt. T. C. Sweeny, Morris Dorsey clerk, takes her departure for Cincinnati today at noon, positively, and passengers and shippers should bear this in mind.

The Bellevernon, from Parkersburg where she has been laid up, will probably arrive to-day.

Capt. McComas, made a trial trip with his new steamer Julia A. Rudolph, and she performed to the satisfaction of all concerned. She is now lying at the foot of Market street, and will at once commence receiving for New Orleans.

The Glendale, Capt. John M. Hare, with the veteran Capt. James Mellon in the the office, is filling up rapidly for St. Louis and St. Paul. The Glendale is one of the best boats in the trade.

The R. C. Gray was towed up to the landing yesterday from the dock, where she has been for some time undergoing repairs, and will at once commence receiving freight for Cincinnati and Louisville. Capt. Isaac R. Whittaker, is in command and Capt. W. B. Anderson in the office.

The Wild Duck appeared to be doing a regular "land office" business yesterday, —it is said she has already 700 tons on board her barges and engaged. Capt. Anawalt is at work, assisted by Gen. Chas. Barnes.

The Kenton will leave Cincinnati for this port to-day, and will leave here on next Friday for Portsmouth, and regularly every week thereafter.

The Julia No. 2, will doubtless be here from Zanesville on Monday and return as usual on Tuesday.

SECURITY AND COMFORT for the traveling community.

J. B. HARRIS

Safety Fire Jacket, Car Heater and MODERATOR.

For Smoke and Hot Air Flues, dispensing with the use of stoves and fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached. Having obtained of the United States Letters Patent for a Safety Jacket which is warranted to resist the most intense heat that may be applied to it in the position and purpose for which it is intended.

It is a sure protection from accidents by fire, originating from defective flues or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stores, dwellings, factories, ships, steamboats, railroad cars, &c. Wherever pipes as conductors are made dangerous by being overheated and security desired, I will send on application right to manufacture or use the above invention. Also Territorial rights to such as may wish to engage in selling privileges either by State or county.

THE REGISTRATION of Venango county foots up 9145, exceeding the Presidential vote last year 612.

A PROCLAMATION from General Canby announces the results of the Virginia election. Governor Walker is to be installed on the 21st, and the new Legislature will meet Oct. 5th.

EUROPEAN IMMIGRATION has been very large during the two months past. Over forty ships have sailed from Liverpool alone, for our ports; among their passengers were a large number of puddlers from the "black country", with spinners and factory operatives from Preston. The German exodus is equally extensive, a much larger share of this than heretofore being directed to our southern ports.

IT SHOULD not be forgotten that all city, ward, borough and township officers are to be elected at the fall elections. None of these offices can, under the law, be filled next spring. All offices which expire next spring must be provided for in the coming October. But little time remains to make the needful nominations, and our friends, in town or country, should at once take due order for setting their tickets in the field.

THE opposition in Ohio are again at their old game. A majority in the next Legislature would be worth far more to the party than the mere election of the State officers. We learn that they are concentrating their efforts upon the close and doubtful counties, colonizing largely from other counties where their majorities are large, and keeping an eye single upon the purpose of securing the largest number of legislative districts. The Buckeye Republicans should attend to this matter before it is too late.

OSTENTATION AND MEANNESS.

We hear, from Mauch Chunk, that the fact is generally conceded there that Mr. Asa Packer did endow Lehigh University with a large pecuniary gift. We have also the true explanation of the milk in that cocoa nut, as the matter is understood by those who best know him and the facts in the case. This Lehigh University is an institution for the exclusive benefit of such families of affluence as can afford to pay about $800 per year for the education of a son. It costs at least that sum annually to get the benefits of that excellent institution of learning. While Judge Packer was found willing to attest in this splendid style his interest in the education of the children of the wealthy, he has positively repudiated his obligations as a citizen to contribute to the school-fund for the education of the poor children of his county. Sued for his taxes in '67 by the Democratic County Commissioners, Poor Directors, Borough Council and School Directors, he paid for that one year, and has not paid a dollar there since. If he had bestowed a little less upon his university, and a little more upon the schools of the people, he would have better illustrated a poor man's idea of Democracy.

WHERE THE FAULT LIES.

It is said that they are disputing, at Scranton, upon the proper responsibility for the present imperfections in the ventilation and management of coal mines. Fault is found with the miners for their readiness to work in collieries where life is manifestly unsafe. Little know these carping critics of the necessities which too often drive husbands and parents into the jaws of death, seeking bread for their families dependent upon the avails of their daily labor! As little do they reflect upon the plain duty of government to provide, as it does, for the public safety, in numberless ways, against the cupidity or recklessness of individuals or of corporations, and against the reckless indifference or ignorance of which the public itself is constantly guilty. In neglecting to surround the underground labor of the Commonwealth with the safe-guards which public duty requires, our Legislature has ignored one of the plainest of their first obligations. It makes no difference whether, or not, our miners may be heedless of their personal safety. It is the business of authority to restrain this heedlessness within salutary limits, as well as to enforce a prudent caution upon their employers. It is expressly for such uses that government exist.

DEMOCRACY UNDER GROUND.

The spirit of a genuine democracy faithfully seeks the greatest good of the greatest number, and avoids needless injury to the interests of those few who usually experience some degree of individual loss from the application of that democratic principle. When a Democratic Senator from Luzerne, in the last Legislature, with the aid of an unbroken vote from all the other Senators of his party then present in their seats, succeeded in defeating the legal enactment of a well devised and comprehensive system for the regulation of mines and the protection of life therein, the question might have been an obvious one, —did he and his friends regard herein the interests of the laboring masses of his constituents, or only of the few great corporations by which these were employed? Senator Turner might have talked until dooms-day, against a measure of which he knew only enough to know that its operation would cost the companies something and the operatives nothing; he might have protested all summer—until the Avondale holocaust would have confounded his tongue—against such "rough treatment" for the corporations as would have saved this terrible slaughter, and he would have been blessed with never a word of approval from the people of Luzerne, to whom that kind of "treatment" would have been justly acceptable. The miners of his district would have been thankful for such a law as that which he opposed—and this he must have known. Probably not one citizen of the Luzerne district now feels keener regrets for the failure of that legislation than does Senator Turner. Unhappily, his regrets will not avail to reanimate this small army of the dead whose lives the proposed law would have saved.

This is a very proper occasion for the Democratic masses, in the mining counties, to ponder upon the proper explanation of the fact that every vote, cast for a bill which would have subjected this Avondale mine to a seasonable inspection, was given by the Senators of one party, while every Senator present, of the other party, voted against it. These facts are too striking to be overlooked just now—especially in the Avondale neighborhood.

THE RIGHTS OF NAVIGATION.

The public-spirited gentlemen attending the Commercial Convention, at Keokuk, have done wisely to confine their deliberations to topics upon which they could rely on the hearty accord of their constituents, the business men of the great valley and its tributaries. The question of a tariff was not one of these. The day has not yet come when that has ceased to be a political issue, and its discussion at Keokuk would have fatally embarassed a non-partizan Convention.

The meeting presents a well-considered and comprehensive plan for the regulation of bridge-construction over the navigable streams. No impracticable or unnecessary restrictions are proposed for the railways; indeed the navigation interest carries concession to the utmost point of safety in the Keokuk programme. But a single span of four hundred feet is demanded for the bridges over the Ohio, all the other spans being one hundred feet less. Other details of the measure provide for points of less importance, but which experience forbids to be overlooked.

Taken altogether, the bill now recommended presents a fair basis for an amicable and just compromise on this bridge question. If it be properly presented at Washington next winter, and adequately supported, on the floors and in the lobbies of Congress, there would be little difficulty in securing its passage. The Keokuk Convention must have some influence in consolidating the navigation interests of the West, for greater efficiency with Congress and with the public, we presume that action was had, before the meeting dissolved, to secure a united and vigorous support of its recommendations. It may be too late to undo the existing mischiefs, but not to guard against their multiplication for the future.

HENRY W. WILLIAMS.

Two years have elapsed since the annexed declaration was made, by leading business men of this city, of their confidence in the personal and professional qualifications of the Republican candidate of that year for the Supreme Bench. In the ensuing October, he had a majority of the legal vote of the Commonwealth, but was counted out by Democratic frauds upon the poll. Subsequently raised to that bench by Executive appointment, he awaits a popular re-election now. His judicial career, for nearly a twelvemonth since he became a member of the Court has subjected those qualifications, of which his neighbors spoke so kindly in 1867, to the critical scrutiny of the profession throughout the State, and the gentlemen who signed the address have the pleasure of recognizing the universal approbation by which their friendly judgment has been so conclusively sustained. The vote of Alleghany next month will show that a distinguished public servant has gained still greater strength by trial.

PITTSBURGH, September 26, 1867.

To the Merchants and Business Men of Eastern Pennsylvania:

The undersigned, representing the various branches of enterprise in Pittsburgh, beg leave to press the claims of Hon. Henry W. Williams, candidate for the Supreme Judgeship, upon your notice.

Judge Williams has sat upon the bench of our District Court for nearly sixteen years. The cases which have arisen before him have been as various and intricate as are the exigencies which give rise to dispute in a centre of trade so largely interested in mining, manufacturing, mercantile, and marine pursuits. His decisions *have been accepted by the Supreme Bench as the law*, and have commanded more general satisfaction among business men than those of any other judge in the State. His varied judicial experience, his extensive legal acquirements, his sterling integrity, and his great ability, eminently qualify him for the high position of the Supreme Court.

Judge Williams never countenanced or favored the repudiation of county, State or national obligations.

* * * * * * *

We earnestly urge you, therefore, not only to vote for but to throw the whole weight of your influence in favor of the Hon. Henry W. Williams, and help us elect him by a majority so emphatic as to decide that henceforth the national credit shall be sustained, justice vindicated, and the rights of citizens fairly and fearlessly maintained.

MINOR TOPICS.

WHEN all the traveling that was done was over the high roads, by means of public or private horse power, the frequency and boldness of highway robberies were notorious. We have since been in the habit of congratulating ourselves upon the utter decadence of that science, of which Claude Duval and his cotemporaries were the most illustrious professors, since the introduction of steam-traveling conveyances. It appears, however, that we have been too confident; highway robberies have been of very frequent occurrence throughout the middle and southern counties of the Commonwealth during the past six months, and now that the winter is approaching we are beginning to hear of them taking place in the streets of cities and towns. It is humiliating to discover that a crime prevalent generations since and suppressed by our fathers should spring up again in alarming proportions in our own day, and were it not that the country seems to have more than it can do, with even greater and more heinous crimes, we might hope that some effective means might be devised for suppressing this rejuvenation of an ancient evil.

AT LIEGE, in Belgium, thirty thousand Belgian sharp shooters will compete for prizes sometime during the present month. The cable informed us, a day or two ago, that a British nobleman, who has long interested himself in the volunteer movement in England, was anxious that a competitive shooting-match should take place between Englishmen and Americans. From these two items we are led to think how do Americans stand as marksmen? We have been in the habit of depending almost altogether upon our immense wildernesses and prairies to furnish us with all of our sharp-shooters, but, year by year this source dwindles, and the race of woodsmen and trappers is dying out. It might not do any good to hold an international shooting-match, but we do think it might be well, in some way, to excite a general interest in rifle-shooting. Excellence in that exercise can do no harm in a country where every man may be a soldier, and to attain this, it might be well to inaugurate something similar to the volunteer movements which for years have been so popular both in Great Britain and Belgium.

IN SPITE of the spread of Liberty and Liberalism, there are still great countries which know almost nothing at all of either one or the other. During the past one hundred years all the civilized world has changed the various governments from Absolutism to positive or comparative popular forms. We have seen France, Russia, Italy, Austria, and even far off China and Japan, yielding to the march of progressive ideas and the force of circumstances, but we see Thibet, a country a quarter as large as the United States, with six millions of inhabitants, as benighted and exclusive as ever. For an unprotected foreigner to penetrate this land is almost certain death, and even the inhabitants themselves, who are abject slaves of an arrogant theocracy, are said not to be aware who their sovereign is, the Grand Lama being supposed never to die, although he occasionally changes his physical body. We call attention to this fact for the benefit of those ardent missionaries who never go abroad, but express at home their thanks that the millenium is near at hand, because Christianity and Civilization have, hand in hand, permeated the whole world. It is a sad fact, but Thibet still remains, unpermeated, as a stumbling-block in the way of the millenium of liberty.

THE CHINESE seem to have but a sorry prospect before them if they come to this country. At the best, they will receive but a cold welcome from our white citizens, and the colored ones, in many portions of the country, have declared, before-hand, war to the teeth and toe-nails with the yellow, oblique-eyed strangers. And, as if this were not already quite sufficient to provide for their utter discomfort, we read, in an Oregon paper, that the original possessors of the soil are filled with an especial grudge against the Celestial new-comers. Among its local items is a notice of the capture of a Pi-ute, who had been indulging himself by killing a Chinaman in Nevada. We think that a collection of a few such facts neatly printed in the Chinese and "Pidgeon" languages, might, if widely circulated in their own country, act as a wholesome check on the desire of Chinamen to journey to foreign parts.

LORD PALMERSTON, who, with Earl Russell and Lord Derby, had had more experience of European diplomates and diplomacy than any other man alive five years ago, occupied some of his leisure time in writing a diary of his life. His manuscript, which has but recently been discovered, is about to be published either bodily or in copious extracts. If it is what we have a right to expect, it will be more interesting and instructive than any book of a similar nature that has ever been written, possibly excepting Talleyrand's unpublished memoirs. In length of experience and knowledge of the world's politics and leaders, Mr. Seward is the American prototype of Lord Palmerston, and it is to be hoped that, before his long and useful public life closes, he will furnish the world with such a volume as can be expected from no other source.

THE new Democratic catechism in Tennessee makes very interesting reading. Here is an extract, from the Memphis *Avalanche*, for which its editor, if in Pennsylvania, would be read out of the party:

Recognize the negro's right to vote; cease to abuse and sneer at him; treat him as a human being, with a soul in his body, and as susceptible of the sensibilities, the resentments and frailties of humanity, and he will at once emulate the magnanimity of the whites, endeavor to rival them in industry, enterprise and thrift, cultivate amity, educate his children, acquire homesteads for his family, strive to deserve the confidence of his fellow men, and above all, he will never cast his vote to the injury of the white man, who he has learned by kindness is his only friend.

OF the Avondale disaster, the Pottsville *Journal* says:

This system of ventilation, by means of furnaces at the bottom of the slope, is very generally used in the Lackawanna region, and, until lately in England, where it was used for ventilating the deepest mines. Had the system of ventilating, now very generally in use in this country, and which has been adopted in England with success, by means of fans stationed on the surface and near the mouth of the shaft, been used, the accident, in all human probability, would not have occurred; or had egress been afforded by means of air shafts, or otherwise, we would not now be called upon to record this lamentable loss of life.

MISCELLANEOUS.

COWPER, the Cleveland bigamist, has been held to bail in Erie, in the sum of $6,500, and has also been sued for $50,000 damages.

Mr. ROBERT SELLERS, aged eighty-five years, residing in Franklin, Venango county, died suddenly from apoplexy on the 6th inst.

CLEVELAND has a breach of promise case. The parties are Nancy Sloan vs. Wm. Pendergest, he nearly sixty and she not far from fifty years of age. Damages asked, $3,000.

THE Massachusetts Supreme Court has decided that a non-resident bank stockholder is liable to taxation. The question involved was the constitutionality of the act under which the tax was assessed.

THE wedding shoes of Cotton Mather's grandmother, with the original publishment of her marriage pasted on the sole of one of them, are in the possession of the descendants of the Winslow family in Duxbury, Mass.

PERPETUAL injunctions have been granted against forty-eight dentists and others in the U. S. Court at Cleveland, for infringment on the Goodyear patent, and a commissioner appointed to take account of damages.

THE application for the pardon of Daniel S. Curtis, imprisoned in Massachusetts for assault and battery, for pulling the nose of a Mr. Churchill in a railway car, has been unanimously refused by the Committee on Pardons.

AT THE Union Depot, Cleveland, O., a day or two ago, in the handling of baggage, a revolver fell from a satchel to the floor and was discharged thereby, the charge taking effect in the ankle of John Higgins, a brakeman, inflicting a serious wound.

At New Derry, Westmoreland county, on the 15th, Timothy Conner cowhided Elias Huntzberger, who retaliated by shooting his assailant in the leg, inflicting a severe wound.

A little boy, six years of age, son of David Hart, of East Boston, was run over by a horse car Saturday afternoon. When his father arrived at the scene of the disaster, the little sufferer said, "Don't whip me father, I will never do so again," He died in about an hour.

Near Port Jarvis, on the Erie Railroad, on the evening of 9th, a locomotive exploded, killing the engineer, fireman and breakman.

THE COURTS.

Quarter Sessions—Judge Mellon.

FRIDAY Sept. 10.—The case of the commonwealth vs. D. O'Neil and A. W. Rook, indicted for libel, previously reported, was resumed, and the commonwealth offered testimony to prove that the defendants were proprietors of the Pittsburgh *Daily Dispatch*, after which the case closed on the part of the prosecution.

A. M. Brown, Esq., then opened the case for the defense, after which they proposed to offer in evidence the entire article in the *Dispatch*, which contained the alleged libelous matter.

Mr. Swartzwelder objected, holding that the remainder of the article was not relavent testimony.

The Court overruled the objection and the article was read in evidence.

Mr. Hampton, for the defendants, then proposed to read the report of the Court proceedings in the O'Neil-Pittock libel case, published in the *Dispatch* on the day preceding the publication of the alleged libel, which was admitted, although objected to by Mr. Swartzwelder.

Mr. Brown, for the defendants, offered in evidence the Judgment Docket of the District Court to show that D. O'Neil had obtained a judgment against J. B. O'Neil for one thousand dollars.

Mr. Swartzwelder, objected and the Court sustained the objection.

Mr. Hampton then offered the original papers in the O'Neil Pittock libel case to show that the report of the case in the *Dispatch* was correct.

Mr. Swartzwelder objected, and the Court sustained the objection.

Mr. Hampton then offered to prove in justification of the alleged libelous publication that J. B. O'Neil, the prosecutor, had previous to the alleged libelous publication layed in the indictment published a libel against D. O'Neil.

Mr. Swartzwelder objected, and the objection was sustained by the Court.

Mr. Swartzwelder then moved the Court to withdraw from the jury the testimony contained in the report of the trial as published in the *Dispatch*, read to the jury by Mr. Hampton, which motion the Court overruled.

Mr. Brown asked the Court to instruct the jury that if they found the alleged libelous publication referred to the civil action for damages between D. O'Neil and Jas. B. O'Neil, et al., they must return a verdict of not guilty. He thought the Court might take the matter from the jury and decide that there was no cause for action, but he would not insist upon it.

Mr. Swartzwelder held that the Court could not so instruct the jury. The indictment does not allege that the defendant charged the prosecutor with the commission of any crime.

Mr. Hampton then argued the case at length, and was followed by Mr. Swartzwelder for the defence, who made a most ingenious and able argument.

Judge Mellon then delivered the charge of the court to the jury.

The hour for adjournment having arrived, the jury were directed to seal their verdict if they should agree before court met.

Court then adjourned.

Oil Matters.

From the Titusville *Herald* of the 9th, we learn that the petroleum production during August was materially enlarged by the finding of new wells. The daily average, as shown by the shipments during the month and the stocks on hand on the first days of August and September, was 12,157 barrels of forty-three gallons, or an increase of 460 barrels over the daily average for July, and of 176 barrels over the daily average for August last year.

Total production since January 1st.....	2,632,861
Average per day for 243 days.....	10,843
Total production same time last year. ...	2,392,779
Average per day same time last year (244 days).....	9,806
Average per day during Aug. last year..	11,981

The largest increase took place in the Church run district, where the production, as obtained from the deliveries and stocks on hand, averaged 750 barrels, against 600 barrels during the last month. On Upper Cherry run there was also a considerable increase. At Pithole, and Bean Farm and vicinity, the enlargement was one hundred and ten barrels, and along the Allegheny south of Franklin there was an increase of about sixty barrels. In the Pleasantville district there was no falling off of importance, as the daily average during the month under review as shown by the shipments and stocks, was 1,120 barrels, against an average of 1,200 barrels for July. On Cherry tree run, where it was generally expected there would be an enlargement, there was a slight decrease. On two or three of the farms on the Lower Cherry run, the product fell off about seventy barrels. At Parker's landing there was an increase of about two hundred barrels in the estimated product on September 1st, over that on August 1st.

The stock on hand, as compared with that on August 1st, shows an increase of about 25,000 barrels. The total stock on the latter date was 332,129 barrels of forty-three gallons, and included 249,829 barrels in iron tankage, 71,842 at the wells and 10,395 in wooden tankage, on the hands of refiners, pipe companies and dealers. The latter amount embraced 1,500 barrels at Titusville, 2,450 at Miller, 2,100 at Petroleum Centre, 400 on Cherrytree run, 800 on the Rynd Farm, 1,250 on the Story Farm, 500 at Tidioute, and at Pithole 1,500. Of the total stock 30,000 to 40,000 barrels is unmerchantable.

Amusements.

OPERA HOUSE.—This afternoon the Worrell Sisters matinee will take place at two o'clock, "Lelia Rookh" and "Kiss in the Dark" will be presented. To-night "Ixion" will be presented for the last time. In every respect the Worrells have improved since their last appearance here, and their performances have attracted large houses.

PITTSBURGH THEATRE.—This old establishment seems to be gaining in popularity, a result of meritorious performances. A matinee for ladies and children this afternoon, and a regular performance this evening will afford amusement seekers opportunities of witnessing the performances of the company now engaged there.

DAVENPORT BROTHERS.—The opening night of the unique performance, given by the Davenport Brothers, is fixed for next Tuesday night. Mysterious, startling and attractive, the entertainment will doubtless fill the house with spectators every evening.

THE ADAMSON'S COMEDY.—The Grand Concert, as part of the Centennial services, which takes place next Monday evening in the Academy of Music, promises to be grand in every sense of the term. No one should miss such a rare musical treat.

Musical Larceny.

Thursday evening the fourteenth of Thomas Lee, employed as bottler for Dr. McCandless, were broken into and a guitar and a lot of wearing apparel carried off. During the evening portions Isaac Williams had called at the house to borrow the guitar, but Thomas was absent, and he apparently left without accomplishing his errand. A few hours afterward Thomas discovered his loss. Suspicion fastened upon Isaac, and information was made against him before Alderman Butler. After a long search, officer Horan captured Isaac in Allegheny with the guitar and a pair of the stolen pants in his possession. He was held for a hearing this afternoon at four o'clock.

—It is reported that the Hudson and Delaware Coal Company have completed arrangements to deliver 3,600 tons of coal at Fishkill, N. Y., daily, and the Pennsylvania Coal Company have increased their delivery at Newburg, N. Y., to 1,200,000 tons per year to meet the wants of the New England trade and to anticipate the opening of the Boston, Hartford and Erie Railroad.

—The Canadian Medical Association met at Toronto on Thursday. Delegates are present from all parts of the Dominion and also from the American Medical Association. The following, not residents, were elected honorary members: Dr. N. T. Davis, Chicago; Joseph R. Barnes, Surgeon General of United States; Dr. S. T. Gross, Philadelphia; C. A. Lee, of Buffalo University.

THOU BRINGEST ME LIFE—LUNG-WORT.

One of the truest and most suggestive ideas can be obtained from the caption at the head of this article; for of all diseases which impair human health and shorten human life, none are more prevalent than those which affect the lungs and pulmonary tissues. Whether we regard lung diseases in the light of a merely slight cough, which is but the fore-runner of a more serious malady, or as a deep lesion corroding and dissolving the pulmonary structure, it is always pregnant with evil and foreboding of disaster. In no class of maladies should the physician or the friends and family of the patient be more seriously forewarned than in those of the lungs, for it is in them that early and effecient treatment is most desirable, and it is then that danger can be warded off and a cure effected. In DR. KEYSER'S LUNG CURE you have a medicine of the greatest value in all these conditions. An alterative, a tonic, a nutrient and resolvent, succoring nature and sustaining the recuperative powers of the system, Its beautiful workings, in harmony with the regular functions, can be readily observed by the use of one or two bottles: it will soon break up the chain of morbid sympathies that disturb the harmonious workings of the animal economy. The harrassing cough, the painful respiration, the sputum streaked with blood, will soon give place to the normal and proper workings of health and vigor.

An aggregated experience of over thirty years has enabled Dr. Keyser, in the compounding of his LUNG CURE, to give new hope to the consumptive invalid and at the same time speedy relief in those now prevalent, catarrhal and throat affections, so distressing in their effects and so almost certainly fatal in their tendencies, unless cured by some appropriate remedy. DR. KEYSER'S LUNG CURE is so thorough and efficient, that any one who has ever used it, will never be without it in the house. It will often cure when everything else fails, and in simple cases will cure oftentimes in a few days.

The attention of patients, as well as medical men, is respectfully invited to this new and valuable addition to the pharmacy of the country.

DR. KEYSER may be consulted every day until 1 o'clock P. M. at his Great Medicine Store, **167** Liberty street, and from **4** to **6** and **7** to **9** at night.

THE FEVER AND AGUE SEASON.

When the leaves begin to change, remittent and intermittent fevers make their appearance. From the surface of the earth, bathed nightly in heavy dews, from marshes and swamps surcharged with moisture, from the dying foliage of the woods, from festering pools and sluggish streams, the sun of September evolves clouds of miasmatic vapor perilous to health and life. The body, deprived by the burning temperature of July and August of much of its vigor and elasticity, is not in a proper plight to resist malaria, and hence all diseases that are produced by a depraved condition of the atmosphere are particularly prevalent in the Fall.

There is no reason why the health of thousands of people should be thus sacrificed. A preparatory course of HOSTETTER'S STOMACH BITTERS is a certain protection against the epidemics and endemics which Autumn brings in its train. Let all dwellers in unhealthy localities, liable to such visitations, give heed to the warning and advice conveyed in this advertisement, and they may bid defiance to the foul exhalations which are now rising, night and day, from the soil around them. No farmhouse in the land should be without this invaluable exhilerant and invigorant at any period of the year, but especially in the Fall. It is not safe to go forth into the chill, misty atmosphere of a September morning or evening with the stomach unfortified by a tonic, and of all the tonics which medical chemistry has yet given to the world, HOSTETTER'S BITTERS are admitted to be the purest, the most wholesome and the most beneficial.

Let all who desire to escape the bilious attacks, bowel complaints and malarious fevers, take the BITTERS at least twice a day throughout the present season. It is as wholesome as it is infallible. Look to the trade-mark, "HOSTETTER'S STOMACH BITTERS," engraved on the label and embossed on the bottle, and their revenue stamp covering the cork, as counterfeits and imitations abound.

PACIFIC RAILWAY GOLD LOAN.
Messrs. DABNEY, MORGAN & CO., 53 Exchange Place, and M. K. JESUP & CO., 12 Pine Street, N. Y., offer for sale the Bonds of the Kansas Pacific Railway. These Bonds pay seven per cent. in Gold; have thirty years to run; are Free from Government Taxation; are secured by a Land Grant of Three Million Acres of the Finest Lands in Kansas and Colorado. In addition to this special grant the Company also owns Three Millions of Acres in Kansas, which are being rapidly sold to develop the country and improve the road. They are a first mortgage upon the extension of the road from Sheridan, Kansas, to Denver, Colorado. The road in operation, 437 miles long, upon which it is also a mortgage, NOW EARNS MORE THAN ENOUGH NET INCOME TO PAY THE INTEREST ON THE NEW LOAN. There is no better security in the market—this being in some respects better than Government Securities. PRINCIPAL AND INTEREST PAYABLE IN GOLD. Price 96, and accrued Interest, in Currency. FINANCE AND TRADE.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, Sept. 10, 1869.

The money market was less stringent to-day than yesterday, causing a rapid rise in bonds and stocks.

Government bonds under large purchases and coverings for short sales advanced about ¾ per cent. to-day, and 1881s and 5-20s of 1862 and 1865s advanced even above one per cent. The news from Europe being more favorable and prices having advanced at London and Frankfort, the feeling became very bouyant here.

Gold after opening at 135, and fluctuating at 135@135¼, became suddenly strong and advanced to 135¾ under large purchases for covering remittances. It is in fact the recovery from the present low exchange rates that is keeping up gold, and the anxiety of the clique to get out of it in the best way possible before the large shipments of cotton and cereals will be felt on the exchange market.

Stocks are fast recovering, and the beginning of the week will open a regular bull campaign. The continued disbursments by the Government are very favorable to a greater rise in stocks that are paying dividends, since the increased receipts are promising large dividends and an enhancement of all railroad property for the future.

Money wss very stringent but is easing up again. Business is dull, the fall season not having yet fully opened, but people are in hopes that a fair business will be done, although profits must be small.

State bonds heavy; Missouris, 87; old Tennessees, 61; new do., 52½; old Virginias, 58; new do., 52½; old North Carolinas, 55; new do., 67.

Stocks heavy during the morning, and old stock exchange refused to call Erie until October 13th. The reason given was that holders and purchasers of the stock could not have their certificates exchanged for those bearing the countersign of the Farmer's Loan and Trust Company until that day. Toward the close the market was stronger and more active, and the chief features were an advance to 113½ for Pittsburgh, on rumor of a scrip dividend, and a rise on Erie from 35¾ to 37 on a report that the books are to be put in the hands of a Trust Company immediately.

Five-Thirty Prices: Canton, 57; Cumberland, 32; Western Union Telegraph 37¾; Quicksilver, 14½; Mariposa, 8; do preferred, 13½; Pacific Mail, 78; Adams Express, 56¾; Wells, 18¾; American 36¾; United States, 61¾; Merchants, 11¼ New York Central, 204⅞; Harlem, 154½ Hudson River, 154; Reading, 96¼; Erie 36¾; do. preferred, 56; Michigan Central 128@128½; Michigan Southern, 101½ Illinois Central, 137; Pittsburgh, 111⅛ Northwestern, 80¼; do. preferred, 89¼ Cleveland, Columbus and Cincinnati 87¼; Rock Island, 111¾; St. Paul, 76¾ do. preferred, 85¼; Wabash, 78½; do preferred, 82; Fort Wayne, 87½; Terre Haute, 33; do. preferred, 56; Chicago and Alton, 150½; preferred, 150½; Ohio and Mississippi, 31¾; Columbus, Cincinnati and Indiana Central, 31¼; Dubuque; 19 St. Joseph, 118.

The Government received tenders for only $675,500 5:20 bonds to-day, and they were all accepted; the prices were 117 42-100@118 99-100. The proposals for the balance of the million required will be received to-morrow.

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, Sept. 10, 1869.

Business generally is improving slowly and the resumption of navigation is calculated to produce a more cheerful feeling, and will no doubt tend somewhat to increase the volume of trade. It is more than likely that the receipts of grain, fruit and produce generally, by river, will be large for a time at least, as there are many points along the Ohio not accessible to Pittsburgh by rail. It is true the supply of almost everything in this market is fully up to the demand, and to increase the supply will tend to bring about lower prices.

APPLES—Coming in pretty freely but prices are still maintained, $1,50 to $2,00 per bbl. for fair, $3,00 to $3,50 for prime, and $4,00 for choice.

BUTTER—Is firm and in steady demand, with regular sales of prime to choice at 33@35.

BERRIES—Sales Blackberries at $1@1,10 per bucket.

CHEESE—Is steady, but unchanged, ranging from 15 to 17, the outside figure for New York Goshen.

CARBON OIL—Sale of 500 bbls, to go to Cincinnati, at 29—may be quoted at 30 to 31 for small lots.

CEMENT—Johnstown Hydraulic Cement is quoted at $2,25 per bbl.

EGGS—Have still further advanced and we now quote at 20@22.

FEATHERS—Dull; quoted at 80@85 cents to the trade, and the usual advance for small lots in store.

FLOUR—Is quiet and unchanged; good western winter wheat flours are being offered to the trade at $6,75@7, and choice do at $7,25. As we have repeatedly noted, spring wheat flours are about done for in this market, and so long as they cost more or as much as winter wheat, just so long will consumers here buy the latter, as it will have the preference at the same price.

GRAIN—Wheat is dull and unchanged: $1,30@1,33 for good to prime red. The mills are well supplied and consequently the demand is light. Oats firmer but unchanged—45 in first hands and 48 to 50 in store. Rye dull at $1,05 in first hands, and $1,10@1,12 in store. Corn is quiet—sales of prime yellow at $1. Barley is in steady demand at $1,25, but there is but little offering.

HAY—Not offering so freely and higher; sales at Allegheny Diamond market of 32 loads at $17@24 per ton.

HEMP—Very dull, $205 per ton.

HUSKS—Sales at 2¾@3 cts per pound.

LIME—White Lime is quoted at $1,50, and Cleveland at $2,50 per bbl.

LARD OIL—F. Sellers & Co. quote Extra No. 1, at $1,45, and No. 2, at $1,05@1,08

PROVISIONS—The demand is fair, but unchanged. Bacon, Shoulders, 15¾; Ribbed Sides, 18¼; Clear do, 19¼; Sugar Cured Hams, 23@23¼. Lard, 20¾ in tirces, 21 in half bbls, and 21½ in buckets and kegs. Mess Pork, $33¾@34. Dried Beef, 22.

PEANUTS—Sales at 15 cents.

PEACHES—Are coming in freely, but with a continued good demand, prices are fully sustained; $1,75@2 for ordinary, and $2,25@2,50 for choice.

PLUMS—In better supply and lower; we now quote at $4.50@4,75 per bushel.

POTATOES—Sales of prime Jersey sweets at $6,25@6,50 per bbl. Irish in better demand and firmer.

SALT—Is firmer, with sales of car load lots at $1,85 per bbl.

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, September 10, 1869.

The oil market continues dull and stagnated, with but little show at present of any immediate improvement. It would naturally be inferred that with rather unfavorable news from the east in regard to refined, and an increased production reported, that crude would weaken and decline, but this is not the case. It appears to be full as strong today as it was previously—no decline, and at this writing but little prospect of any. On the other hand, with a majority of our refineries closed, and, comparatively, insignificant shipments, it would naturally be inferred that refined would gather strength and advance but this is not the case. Prices are no better than last week, and, if anything, a shade lower to-day than yesterday. Last year at this time, it is said, we were shipping at the rate of from 3,000 to 4,000 bbls per day, while this week the average will not be much over 1,000 to 1,200. It is said that there are over 200,000 barrels tonnage at Philadelphia and New York, but if this is the case, it does seem strange that exporters are not taking hold more freely, and passing strange, that in the face of all this, the market should be weak and drooping. To-day, for the first time in several months, there were no shipments; this being the case, the query very naturally comes up, if Philadelphia and New York want 200,000 bbls of refined oil, where are they going to get it?

CRUDE.

Not a single sale reported—market quiet but firm. Spot or seller September, held at 14¾; October seller, held at 15; and September to December, at 14⅞ @15.

REFINED

Sales 1,000 September last half at 32¾; 500 do at 32⅜; 300 first half at 32¼; and 1,000 spot (prime light straw to white,) at 31¾. September or October to December nominal at 32½@32¾.

A SWIM IN SALT LAKE.

I came near going away, like nineteen ourists out of twenty who visit these arts, without taking a swim in Great alt Lake. If I had done so, you might ave set me down a poor traveler indeed, or this day's experience has been quite s interesting, instructive, its sensations s novel, and its incidents as striking, as ave been afforded by any other three ays of my sojourn. A drive of twenty iles in the cool of the morning brought ie and my compamion to the best batning lace in the lake. We had refreshed on ie way with a nice country breakfast at ishop Kessler's (think of breakfasting ith a bishop and paying him filthy lucre or it!), and were in fine condition for a ash in the slight surf. There were no ouses within gunshot, and the apathy hich prevails at the city concerning all orts of healthy sport had its compensaon in this case, for it allowed us full opportunity for indulging in "buff bathing" -nature's own sort, which the watering laces have suppressed hitherto, but are ow, ashamed of their conventionalities t last, allowing to "come in" again. But Salt Lake cares naught for watering lace regulations, and we were soon *in uris naturæ*, neck deep in the salty aves, kicking and splashing, someraulting and cavorting, as happy as clams or schoolboys) in high water.

Neck deep! It is an arbitrary expreson, and may mean five feet or twentyve, for one cannot go beyond that depth nless handicapped. The dense fluid uoys him up so that, after reaching the epth of his shoulders, he may walk as he leases; he can't touch bottom, and his ead refuses to keep down as persistently s an apple on Hallowmas E'en, or a hicago scalper under the bankrupt act. uoyancy—you will never know the eaning of the word until you go to Salt ake and bathe. You feel as if you had iscovered a new element, superior for ie time to earth, air or water. You rike out to swim in the usual way, and our back parts rear up like the roof of ie tabernacle; anon your feet are kick-g in the air, and you flop to save your ead from an unexpected ducking. Lying n your back, you float like a porpoise; ien you try some new evolution, and hout your astonishment and hilarity at ie result.

"Halloo! how do you feel now?" I sk my fellow bather.

"O, buoyant," is the reply.

The sensation is akin to that described n slang as "salubrious," though it has one of the muddled quality of the tipler's salubriousness. You merely feel a ttle delicious uncertainty as to whether ou are a Chicago traveler or a big air ladder, and you delight yourself with ie reflection that, after all, there is not uch difference between the two. The emperature is just right, and the effects eem exhilirating rather than weakening. By-and-by you get surfeited with novely and go ashore. Then you get your rst reminder of the exceeding saltness of he water—first except some little gulps n first plunging in, which most likely aught you to keep your mouth shut o all further influx from the lement around you. Under the rying influence of the sun, if ou should stand in his rays for a moent, you will soon be encrusted with a white mass of pure salt—a sort of veneered Lot's wife. A friend told me that e once solved the Sambo problem by etching an African brother out and givng him a bath in this water. The fellow vas soon enameled white enough. But hat was in the days when niggertude was drawback; the albescent process would e unnecessary nowadays. But we did ot test this peculiarity of the lake bathng. Less than the usual application of owels served to make us dry and glowng, and we realized no prickling sensaion such as some visitors here have desribed, nor did we feel any need of a fresh vater rinsing. On the whole it was one f the best things imaginable in the way f a bath. I may mention, also, that our ishop takes a daily bath in these waters or his ancient broken leg; with good ffect, as he thinks.—*Utah Cor. Chicago Post.*

The Romance of Husking Corn.

Honestly--and all rural proclivities apart—I do not think that husking corn s very likely to promote the flow of the enderer sentiments. It is simply—hard work; specially when we come to count up a score or two of husks. It is another instance in which the printed pastoral is far more attractive than the actual pastoral. A roomy old barn, with blithe sunlight pouring in and lighting up the cobwebs and flashing in the golden locks of Joan, who wears striped brocade and sits magnetically near you, might make the work tolerable. But with half a hundred of damp shocks standing away in an angle of the cornfield, with a biting northwestern whistling among them--fingers benumbed, a thumb worn bare by its wrestle with the rasping husks, and Joan (if she be there at all) sitting on a cow-stool, and with nose pinched fearfully by the October chilliness—the affair wears quite another aspect. The realists, if they venture upon the subject, may rely upon these latter data as correct. What, too, if Joan be red-nosed and ugly? She may not make a fine figure in a corn field or in a picture; but even ugly Joan may so illume that home of hers with smiles, with cherry activity, with delicate and unflagging attention to all home interests, as to make an atmosphere about her in which she moves transfigured, and seems ever as beautiful as the morning. Lovers think themselves wise; but in reality they are as blind as bats, and have no conception of the devotion and the self-sacrifice of which a true woman is capable.—*Ik Marvel.*

The State Agricultural College.

The delegates from the various County Agricultural Colleges of the State met at Bellefonte, Centre county, on the 2d, a larger number of societies being represented than was ever before known. The election of Trustees to fill the vacancies resulted as follows: Judge Watts, of Carlisle, re-elected for three years; General Harry White, re elected for three years; Joseph C. Turner, Esq., elected, vice George Blight, retired, for three years, and A. Boyd Hamilton, late President of the State Agricultural Society, vice Hayes Hamilton, for one year. The College opened on the 7th inst., under the direction of Thomas H. Burroughs, late Superintendent of the Public Schools of the State, with very flattering prospects.

John Brown's Dying Speech.

Old John Brown, whose "soul goes marching on," upon being asked by the Court that tried him in Virginia for treason, what he had to say why sentence of death should not be passed upon him, immediately rose and in a clear and distinct voice said:

"I have, may it please the Court, a few words to say. In the first place, I deny everything but what I have all along admitted of a design on my part to free slaves. I intended certainly to have made a clean thing of the matter, as I did last winter when I went to Missouri, and there took slaves without the snapping of a gun on either side, moving through the country, and finally leaving them in Canada. I designed to do the same thing again on a larger scale. This was all I intended to do. I never did intend murder or treason, or the destruction of property, or to excite or incite slaves to rebellion, or to make insurrection. I have another objection, and that is that it is unjust that I should suffer such a penalty. Had I interfered in the manner which I admit has been fairly proved—for I admire the truthfulness and candor of the greater portion of witnesses who have testified in this case—had I so interfered in behalf of the rich, the powerful, the intelligent, the so called great, or in behalf of any of their friends, either father, mother, brother or sister, wife or children, or any of that class, and suffered and sacrificed what I have in this interference, it would have been all right, and every man in this Court would have deemed it an act worthy of reward rather than punishment. The Court acknowledge, too, as I suppose, the validity of the law of God. I see a book kissed, which I suppose to be the Bible, or at least the New Testament, which teaches me that all things whatsoever I would that men should do to me, I should do even so to them. It teaches me further to remember them that are in bonds as bound with them. I endeavor to act up to that instruction. I say I am yet too young to understand that God is any respector of persons. I believe that to have interfered as I have done, as I have always freely admitted, I have done in behalf of His despised poor, not wrong, but right. Now, if it is deemed necessary that I should forfeit my life for the furtherance of the ends of justice, and mingle my blood with the blood of my children and with the blood of millions in this slave country whose rights are disregarded by wicked, cruel, and unjust enactments, I say let it be done. Let me say one word further. I feel entirely satisfied with the treatment I have received on my trial. Considering the circumstances it has been more generous than I expected. But I feel no consciousness of guilt. I have stated from the first what were my intentions and what were not. I never had any design against the liberty of any person, nor any disposition to commit treason or excite slaves to rebel or make any general insurrection. I never encouraged any man to do so, but always discouraged any idea of that kind. Let me say also in regard to the statements made by some of those who were connected with me. I fear it has been stated by some of them that I have induced them to join me, but the contrary is true. I do not say this to injure them, but as regretting their weakness. Not one but joined me of his own accord, and the greater part at their own expense. A number of them I never saw, and never had a word of conversation with till the day they came to me, and for the purpose I stated. Now, I have done."

These words, so bravely spoken, have sent such a thrill through the world as nothing which has been said since the sermon was preached upon the Mount.

The Latest Dodge.

A very ingenious trick, by which a gang of swindlers are making money by mutilating national bank notes of the denomination of five dollars, has recently come to our notice. The dodge consists of making ten bills out of nine, and is so managed that there is but one pasting to each of the manufactured notes. The nine whole bills are taken, and from the right of the first one-tenth is sliced off; from the right of the second two-tenths; from the right of the third three-tenths, and so on to number nine, from which nine-tenths are taken from the right, or what amounts to the same thing, one-tenth from the left. Number one is passed as it is, with a tenth gone from the right; the one-tenth taken from number one is pasted to the residue of number two, from which two-tenths had been taken; these two-tenths are made to answer the place of the three-tenths taken from number three, and so on through. Thus nine five dollar notes are completed, leaving the original number nine with a tenth gone from the left, as a tenth note.

It will be seen that but a tenth is gone from each bill, and in a different place on every one, and a little ingenious pasting make the loss imperceptable to ordinary observers. It is certain that large numbers of these mutilated bills have been circulated in this city, and our readers will do well to look out for them. The rogues who have carried out the fraud were cunning in selecting the denominations they did. Larger bills would have been more closely scrutinized, and smaller ones would not have been so remunerative, A similar thing was done by parties in Williamsburgh, several years ago, with fifty dollar notes of the International Bank of this city, but that cheat was not so cleverly managed as this, and was soon detected. The department will not redeem a bill which bears evidence on its face that it has been tampered with, and we advise our friends to scrutinize their five dollar notes closely.

Shakespeare's Religion.

Mr. Hepworth Dixon has discovered Shakespeare's religion. He was a Puritan. This theory in founded on the following facts. It is known to most readers of Shakespeare that Falstaff was originally called Oldcastle. In this he is supposed to have followed the monkish traditions which threw ridicule and discredit upon Sir John Oldcastle, a good knight, who was one of the earliest martyrs of the Reformation. Later in life the dramatist discovered that he had done grievous wrong by identifying Sir John with the buffoon and libertine, and he, therefore altered the name of this character to Falstaff. Not only did he do this, but, in the epilogue to the second part of King Henry IV, he goes out of his way to vindicate Oldcastle's memory, "Who," he says, "died a martyr, and this is not the man." Mr. Dixon declares that, as Shakespeare dared to write that confession in the days of Archbishop Whitgrift, he must have been a Puritan.

SPECIAL NOTICES.

SCHENCK'S PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the livor and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens into the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivaled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the duets of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abcesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all billious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs **225** pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparation with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. **37** Bond street, New York, every other Tuesday, and at No. **35** Hanover street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is **$5**. Office hours at each city from **9** A. M. to **3** P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each **$1.50** per bottle, or **$7.50** a half dozen. Mandrake Pills **25** cents a box. For sale by all druggists. mv19:151-d&F

CITY AND SUBURBAN.

THE GAZETTE *is furnished to the city for six days of the week for* 15 *cents per week; by mail,* $6 *per annum:* 3 *mos.,* $2.

Pocket Picked.—Yesterday morning a lady had her pocket picked of five dollars in the Allegheny market.

Pittsburgh was not represented at the meeting of the American Pharmaceutical Association in Chicago. Why?

An Accommodation Train has been placed on the Allegheny Valley Railroad between Kittanning and Parker's Landing.

There will be a public procession of members of the Odd Fellows on the occasion of the installation of Wm. H. Devore Lodge No. 676, next Monday.

Humboldt Celebration.—We direct attention to the Humboldt Celebration advertisement announcing the formation of the "procession," on our 5th page.

The Pacific Mail train on the Pennsylvania Central road, runs from Harrisburg to Easton at the rate of a mile in a minute and a half, including stoppages.

Stable Robbed.—Mr. John Heiron's stable was entered before daylight yesterday morning and robbed of a set of silver mounted buggy harness and several bridles.

Personal.—Wm. M. Porter, Esq., City Controller, of Allegheny, left town yesterday on a brief visit to his friends. During his absence Mr. J. R. Oxley, clerk of Select Council, will attend in his office.

On Friday next the Soldiers' monument of Montgomery county will be dedicated at Norristown. Gen. Joshua T. Owen will be the orator, and Gens. Geary and Burnside are expected to be present.

To-morrow morning, Rev. S. M. Hickman, of the South Common M. E. Church, Allegheny, will preach the annual sermon to the Brotherhood of Locomotive engineers, in that church, by invitation. The Brotherhood will attend the service in a body.

Notice to Constables.—The Constables of the wards of the two cities will be heard on their returns before the Grand Jury on Wednesday, September 15th, the Constables of the boroughs on the 16th, and the Constables of the townships on the 17th.

Alleged Larceny.—Hezekiah Livres made information before the Mayor, yesterday, charging Robert Huston, colored, with larceny, alleging that he had stolen deponents pocketbook, containing fifteen dollars. Huston was arrested, and after a hearing was committed for trial.

Semi-Annual Report.—We desire to call the attention of our readers to the Fifth semi-annual report of the President of the Mutual Building & Loan Association, which we publish in another column. The report shows the institution to be in a healthy and flourishing condition.

The Sleeping Cars in course of construction for the Pittsburgh, Fort Wayne and Chicago Railroad, at Fort Wayne, will be sixty feet in length, divided into six compartments, with accommodations for forty-eight persons, both for day and night travel, and the estimated cost of each is $10,000.

Match for the Championship.—William Dodge, the present champion billiard player, and Harry Warren, will play a match, on the 30th inst., at the Grant House billiard parlors, for $100 a side and the champion cue of the State. The game will be the American four ball carom game push shots barred.

Proceeds Not Paid Over.—Yesterday information for larceny as bailee was was made before Alderman McMasters against Robert John by D. S. Auth, agent of a life insurance company. Auth alleges John obtained $13,50 on a policy of insurance, which he neglected to hand over. Warrant issued.

Obstreperous.—Officer Dressler yesterday arrested Billy Graham, a "rough" of some notoriety, who was attempting to break down the door of a house on Virgin alley, kept by Mrs. Douglass. When taken into custody by the officer, Graham became obstreperous and refused to go to the lock up, but "Pete" took him. He was locked up and will probably get thirty days at Claremont.

Kept the Overshoes.—Alderman Lynch yesterday had a case of larceny as bailee before him, in which Mrs. Clark appeared as defendant and William Jackson prosecutor. Mrs. Clark was charged with obtaining a pair of overshoes from Jackson and retaining them after a demand had been made for their return. They were valued at $3. An officer was detailed to wait upon Mrs. Clark with an invitation to call at the Alderman's office.

Keystone.—The celebrated Keystone Queensware, from the Keystone Pottery, Messrs. Kier & Co., proprietors, can be purchased at the warerooms, No. 363 Liberty street. The merits of the "Keystone" are already so well known and widely celebrated that it were unnecessary to do further than refer to the fact that a new and large assortment is now occupying the shelves of the wareroom, which purchasers should take advantage of without delay.

Bar Room Assault.—John Towers alleges in an information before Alderman Strain, yesterday morning that he took a drink in the saloon of John Wilkins, on Water street, and in payment thereof laid down a five dollar bill, and received in change only two dollars. He said he asked for more money when Wilkins came from behind the bar and beat him unmercifully. The Alderman issued a warrant for the arrest of the pugilistic Wilkins.

The Third Ward Candidates.—Col. J. D. Egan, we learn, will be a candidate for Alderman, subject to the decision of the voters of the Third ward. We do not know who Col. Egan's opponents are, if he has any, but we do know the Colonel to be a staunch and tried Republican, one who has rendered efficient service to the party, and is universally esteemed by his neighbors and friends, and would make a capable officer. He will doubtless receive a handsome vote.

An Old Established House.—We made a brief visit yesterday to the establishment of Messrs. L. E. Sutton & Co., No. 58 Market street, and there found one of the most complete Stencil Cutting establishments in the city. They have all the facilities for getting up, at short notice, all descriptions of Stencil Plates, Steel Stamps, and in fact every article usually gotten up in any similar house. Messrs. Sutton & Co. were the first in this city to reduce prices, and are now reaping the reward for their enterprise. We recommend them to any one wishing any article in their line.

The body of the man King, drowned in the Allegheny river Thursday night, had not been recovered up to last evening. He resided on Etna street, Ninth ward, and leaves a wife and six children.

Threatened His Wife.—Anna Breenlear Weisengraun stated to Alderman Shore yesterday that her husband, Herman Weisengraun had threatened to give her "a blow which would put her past living," an ominous declaration which so alarmed her that she felt restrained to seek legal protection in an information for surety of the peace. A warrant for Herman's arrest was issued.

Libel Suit.—Charles B. Stein made information before Alderman Lynch, yesterday against Messrs. O'Neill and Rook, of the *Dispatch*, for libel. The charge is based upon an item which appeared in that paper, Thursday morning, in which it was stated that Stein had been sued on several occasions during the past year for maintaining a bawdy house. Warrants were issued.

Not Found.—Officer Blondin, of Alderman McMasters police, who searched the house of Ned. Reynolds, in West Pittsburgh for a game chicken, which as we noted yesterday, Reynolds was charged with stealing, failed to find the chicken, or the least trace of it about the premises. Persons should be careful in making criminal informations against others and subjecting them to such annoyances without sufficient cause.

Strange Occurrence.—At two o'clock on the morning of the 9th, as the regular freight train from Meadville, with two extras, stopped at Cochranton where they had to wait half an hour, one of the cars was struck by what appeared to be a ball of fire, descending from the heavens, causing a report like the discharge of heavy artillery, destroying the car and injuring a brakesman so badly that he cannot recover. The engineer and fireman both distinctly saw the ball of fire descending.

The Humboldt "Volkfest" is to take place at Friendship Grove, which is at *Millvale Station*. We emphasize this statement because an impression prevails that it is at Rouge's Station, which is about a mile away. The great special train to the festival on the 16th will be nearly half a mile long and drawn by four splendid locomotives, two of which have been brought on from Altoona expressly for this purpose. This train will start at one o'clock precisely. Regular accommodation trains will start at 8:15 and 4:15, and two special trains will return, starting at 5:45 and 8:15. Badges must be bought and worn by passengers on the extra trains.

Accommodations for Ladies.

The Committee having in charge the arrangements for the Humboldt Centennial have concluded to erect a large Tribune for the accommodation of ladies who may wish to be present at the laying of the corner stone of the monument. Messrs. Wm. S. Boyd & Son have generously contributed the lumber for the work. None but ladies will be admitted. Tickets will be issued by the Secretary, Colonel Sweringen. The exercises altogether will, it is expected, occupy about two hours.

Temperance Meeting.

Last evening a mass temperance meeting was held in the Sixth ward, Allegheny, at the corner of Beaver and Locust streets. Jas. McCain, Esq., presided, with Messrs. W. F. Trimble, J. L. Wilson, G. W. Reynolds, Wm. Gill, Allen Means, and W. B. Ross, Vice Presidents, and W. C. Freeborn and R. H. Sample, Secretaries. Addresses were delivered by Rev. J. S. Lemmon and Rev. Penal Coombe. The occasion was enlivened by excellent music from a brass band in attendance.

Held.

Yesterday morning Lany Harriott, charged with larceny, had a partial hearing before Mayor Drum. The robbery of Cochran's carpenter shop, with which he was charged, was committed in March last. The defendant called witnesses to prove his residence in New York at that time. He still insists the tools, which were all identified by Mr. Cochran, were given him by Frank Cook, who formerly boarded with him. He was committed, in default of bail, for a further hearing this afternoon at four o'clock. Cook has not yet been secured.

A Propitious Opening.

The present term of the Pittsburgh Female College has opened propitiously, and promises to be one of the most prosperous years this popular and excellent institution has yet enjoyed. A large number of young ladies are already present, and we hear of a large number of others yet to come; and although the late improvements in the buildings of the institution were thought to be ample for the accommodation of the patrons of the school for several years, we are of the opinion that there will be but little room to spare in another year.

Sneak Thief Arrested.

Yesterday morning officer Dressler arrested James M. Starr, who was offering to sell a cape of an overcoat for fifty cents. The cape was made of fine cloth, and was evidently worth more money than the thief was asking for it. The officer, suspecting that it had been stolen, took Starr into custody and locked him up. A few hours afterward a gentleman residing on First avenue called at the Mayor's office, identified the cape and said that it had been stolen from a coat rack in his hall. An information will be made against Starr for larceny.

School Book Imbroglio.

New Brighton is exposed almost to the point of revolution on the school book question. The Board of Directors having "laid on the table" a paper of citizens expressing their disapproval of a change of text books in the borough schools, the Board having determined to substitute the "National" for the "Osgood" series, a public meeting was held, at which a series of resolves were adopted: One that Osgood's series were equal in typography and superior in lesson arrangement to the National; another that they (the citizens) would send their children to school next Wednesday with the books of Osgood's series, and in case of refusal of admittance and instruction in said books, an issue would be made to determine whether a majority of the citizens shall have their will complied with, after respectful petition, or whether "the majority so petitioning have rights which a board of school directors are bound to respect;" also others thanking those of the directors who resisted the change of books, and asking the immediate resignation of those who voted against the "respectful petition of a majority of our citizens." In addition to these vigorous resolves, some three hundred and fifty voters and taxpayers signed an appeal to the directors to reconsider their action. The Board, we judge, must yield to the pressure.

RAILROAD ACCIDENT.

Collision on the Panhandle Railroad—Three Men Killed and One Wounded—Two Locomotives and Five Cars Wrecked.

A frightful accident occurred on the P. C. & St. L. Railroad at an early hour yesterday morning, near Edgington station, about forty miles west of this city, by which three men were killed instantly and another had his leg broken. The accident was caused by a freight train colliding with a construction train, wrecking both engines and five freight cars.

We are indebted to Mr. J. B. Dorrington, General agent of the road, for the following particulars. A western bound freight train, No. 26, extra, on which William Reynolds was conductor, collided at Edgington station between four and five o'clock yesterday morning, with a construction train. The engines were both demolished and the engineer on No. 61 and fireman on No. 26 were killed instantly. The engineer on the latter engine, Charles Howard, had one leg broken. In addition to demolishing the engines, five cars of the freight train were completely wrecked, and the brakeman on the front car, Leslie G. Simmons was killed. The accident was the result of negligence on the part of a telegraph operator who failed to deliver orders to the conductors of the colliding trains.

Mr. Montgomery, the engineer on No. 61, was a single man, and resided in Baltimore, where his relatives live. McFarland, the Fireman on No. 26, resided near Halliday's cove, near where the accident occurred, is a married man and leaves a family. Leslie Simmons, the brakeman who was killed, was a single man, but we are unable to state where he resided.

Executive Committee Meeting.

A regular meeting of the Republican County Executive Committee was held in the District Court room, yesterday.

The meeting was called to order at half-past three o'clock. W. S. Parviance, Esq., chairman, presiding.

The minutes of the preceding meeting were read and approved.

R. W. Murray, chairman of the committee to obtain a list of the assessors in the county, together with their report of registration, so far as practicable, reported that the committee had completed the list except the Fifteenth ward, Pittsburgh.

The report was received.

On motion of Mr. Oliver, it was resolved to hold a public meeting at the New School Hall in the Eleventh Ward, on Thursday the 23d inst. Adopted.

It was resolved to hold meetings in Braddock's Fields and Wilkins township, the time to be fixed hereafter.

Mr. McCormick suggested the name of S. B. Course, of McKeesport, as a member of the Committee, and moved that he be admitted to membership.

On motion, laid over under the rules.

On motion of Mr. Reyno the Committee on Speakers and Meetings was instructed to procure a good German speaker to address a meeting in this county, and also to bring out the local German speakers in the city.

After the transaction of some further business, the Committee adjourned to meet at 3 o'clock P. M., Tuesday next.

Sabbath Diversions.

Last Sunday a company of young people, numbering about one hundred and eighty of the population of Sharpsburg, having no particular reverence for the Sabbath, except as a day of rest and merriment, undertook to pass the time by having a picnic. Fearing the borough authorities, however, they withdrew to a sequestered grove, via some distance from town, and supposing they were secure from all paying eyes, passed the hours until sunset in feasting, dancing and other diversions of a pleasant character. Unfortunately, they had pitched their camp on the land of a Sunday-observing farmer, who became aware of their movements. He kept his counsel, however, until he was enabled to consult a gentleman of the legal fraternity. As a result, information was made before an Alderman, and the whole party, whose names somehow had been obtained, were notified. To save the matter from going to court they plead guilty and were dealt with according to law, which imposes a fine on each offender.

Recovering.

Magee, the man who was sent to Dixmont a day or two ago, is recovering. It is said he is suffering principally from an attack of delirium tremens, and was not insane when sent to the asylum. He is the man who some days since, while in an intoxicated condition, fell over an embankment and almost disemboweled himself by falling on a bottle which he had been carrying in his pocket, and which broke when he came in contact with the ground. He was first sent to Mercy Hospital, but, it seems, was supposed to be crazy, and as soon as possible was sent away from that institution. He next turned up at the watch-house, and went from there to Dixmont. All the time, it seems, he has been suffering from the effects of excessive drinking rather than insanity. The wound, which almost cost him his life, is healing and with proper care his physician, Dr. Donnelly, thinks he will recover.

Singular Death.

Yesterday morning Daniel McGeary conductor on a stock train on the Pennsylvania Railroad, was jolted off the train while it was in motion, a short distance this side of East Liberty, by the uncoupling of the car upon which he was walking. He fell to one side of the track, got up without aid and walked to his home in East Liberty, apparently none the worse by the fall, with the exception of a slight scratch on his head, above the temple, and another on his side. The accident occurred at eight o'clock, and the man died at his residence about noon. He was a married man, about forty-eight years of age, and had been employed on the road for a number of years. Alderman Donaldson will hold an inquest on his body this morning.

What is Needed.

A clean, dry, smooth and solid pavement around the house or in front of it, is one of the most essential particulars in adding to the neat appearance of the premises. The Boulevard, as laid by Messrs. McCowan & Co., of Allegheny, exactly meets this long want for a good substantial pavement, and at the same time has the additional attraction of being comparatively very much cheaper than the old style of brick walks. For cellar floors and such purposes, the Boulevard also comes up to the standard, and wherever laid has given the fullest satisfaction. Persons desiring any information concerning this new candidate for public favor, should call on Messrs. McCowan & Co., No. 65 Ohio street, Allegheny.

A Rising Firm.

Among the many popular business firms in this city, we know of none rising more rapidly to public favor, than that of Wattles & Sheaffer, jewellers, No. 101 Fifth avenue. The gentlemen composing the firm are both practical jewellers and possess a very high order of business talent, and are thereby better qualified for both purchasing and selling goods than men of less experience, and purchasers will always find it an advantage to buy of dealers of that kind. Messrs. Wattles & Sheaffer have on hand one of the largest and finest stocks of goods in their line to be found in the city. The stock comprises American and English lever gold and silver watches, French, German and American clocks, of every conceivable pattern; jewelry in sets and by the piece, watch chains, guard chains &c., &c. Without attempting to particularize their immense stock of watches, we desire to call attention to one class of watches which we think worthy of special notice. We refer to the Solid Gold Hunting Case, Full Jewelled Watch, which they sell for the small sum of $30. We speak advisedly when we say we know these watches to be excellent timekeepers, and Messrs. Wattles & Sheafer will give a written guarantee to the purchaser that they are what they are represented to be. No lady should be without a watch when such an excellent one can be purchased for so small a sum of money.

Second Ward Geary Club.

Last evening the Second Ward Geary Club held a meeting at their headquarters, No. 66 Smithfield street. Col. Wm. Phillips presided, with Thomas Thorne as Secretary. A Committee of three was appointed to procure the necessary books and district the ward for canvassing purposes.

An election for permanent officers of the club resulted in the unanimous choice of Thomas Steele for President, Col. Phillips for Vice President, Thomas Thorne Secretary, and Thomas Ewing Treasurer.

The President was instructed to appoint an Executive Committee for the campaign.

The resignation of Capt. John I. Stein, as commander of the Marching Corps, was received, accepted and the election to fill the vacancy postponed until next meeting.

Adjourned to meet next Monday evening at 7½ o'clock.

Red Hot Revenge.

Wm. Robison and George Washington Paine, both colored, met at a friend's house on Thursday evening, when unfortunately they engaged in an argument, which finally was on the point of resulting in an unpleasantness when the friend interfered and prevented hostile demonstrations. George Washington, however, determined on revenge, and seeing William the next day embraced the opportunity by violently assaulting that astonished individual. Recovering from the attack, William wended his way to Alderman Butler's office and made information for assault and battery against his assailant.

W. J. Sorrel also made information against the same defendant for disorderly conduct, the fight between the two having occurred at his house. The accused was arrested and after a hearing, compromised the cases by paying the costs.

The Peoples' Favorite.

We see it stated on reliable authority that the Singer Sewing Machine company are manufacturing and selling two thousand machines a week, which is almost double the sales of the next largest company.

Taking this in connection with the fact that the company employs no runners or canvassers, does it not speak well for the superiority of their machines over all others?

The Singer company are always up to the times with the latest improvments, and while it is the oldest machine in the market it is at the same time the most modern in its construction.

They are the simplest, quickest and lightest running, require the least possible skill to use them. Have the greatest range of work and are the least liable to get out of order.

Straw & Morton are the agents in this city, at No. 40 Sixth street, corner Penn, and are prepared to give as favorable terms as any other house. Parties who are not prepared to buy for cash, can be accommodated on the lease plan, which requires a payment down and the balance at the rate of ten dollars a month.

Call and examine for yourselves, as the agents in this city employ no canvassers to run around from house to house to misrepresent other machines in order to sell their own.

Life Insurance.

The New York *Insurance Monitor* seriously differs with Insurance Superintendent Barnes as to the relative solvency of the various Eastern Life Companies. According to the *Monitor* the Superintendent's report shows that the mammoth old companies are not relatively as strong as some of the younger ones. We do not propose to discuss the "actuarial mysteries" involved, and only allude to the subject to caution our readers that they should be careful how they invest in any of those foreign companies on the glib representations of the "agent," while these high authorities who profess to understand all the intricacies of the subject differ so widely in their conclusions. Especially should this be so while we have a home company that offers as good security *as the best can offer*, and in addition, has a system of business which every one of common intelligence can fully understand. No Pittsburgher should insure in any Eastern company until he has fairly examined the system of the Co-operative Life Insurance Company of Western Pennsylvania. Full information can be had at its office, 128 Smithfield street.

Novel and Beautiful.

There is probably nothing in the city to which these adjectives apply more aptly than to the stock now to be seen in the store of Messrs. McPherson & Muhlenbring, the eminent merchant tailors at No. 10 Sixth street (late St. Clair street.) These gentlemen have just received a very large supply of goods for autumn and winter clothing, and we do not believe that there is a better selected, more stylish, more varied in taste or more endurable stock of cloths, cassimeres, etc., in the State, and it will repay any gentleman, who may happen there, to be shown so much that is worth seeing. This firm succeeds the well-known one of W. H. M'Gee & Co., and Mr. M'Gee, in retiring, warmly recommends his successors. The present firm is composed of Mr. McPherson, one of the best known young merchants in this city and formerly junior partner of Mr. M'Gee—and Mr. Muhlenbring, whose reputation as a particularly accomplished cutter is as well deserved as it is general. His especial knack seems to be his ability to please the gay young gentlemen as well as the staid old ones.

The Headquarters.

The Headquarters in the city for fine tobacco, cigars and smoking apparatus of every variety is Megraw's establishment, No. 45 Hand street. The old smoker can find here everything he desires, and of a quality which cannot fail to satisfy the most particular fancy. Mr. Megraw makes it a cardinal rule in the management of his business to purchase only the best articles, so that his patrons always have the advantage of selecting from a stock which is not excelled anywhere. Just at at present he has a new and carefully selected assortment of goods, to which the attention of purchasers, wholesale or retail, is directed. Nowhere in the city can they be better suited, either in price or quality.

THE VAST AMOUNT of PLANTATION BITTERS now being sold and shipped from New York is almost incredible. Go when and where you will—along the wharves and piers, and at the depots—you will see great piles of these Bitters awaiting shipment and conveyance to every nook and corner of the country, and to the hundreds of foreign ports. They are very popular among all classes of people, and are conceded to be just the thing for this climate. No Bitters have yet been introduced which have borne so deservedly popular and worthy of patronage, to all who require a tonic and stimulant. They are prepared with pure St. Croix Rum, Calisaya Bark, and all the world knows full well what beneficial results accrue from these combinations.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price. TH.S.T.F.

The following editorial notice appears in the *Advocate*, which is the organ of the Methodist E. Church in Buffalo:

"CATARRH REMEDY.—We think we do the public a favor, by calling the attention of those afflicted with catarrh to the remedy advertised in our columns, as 'Dr. Sage's Catarrh Remedy.' A son of ours has been afflicted with catarrh for several years, and having tried various remedies without success, we began to fear that in the case there was no cure. But a few months' use of the above medicine has entirely removed all traces of the disease.

"We write the above not for pay, but for the information of those afflicted, and as an act of justice to those by whom we have been benefitted."

It is sold by druggists for fifty cents.

Marvin's Lemon or Fruit Biscuit, Water, Sugar, Boston or Cream Crackers, always fresh, sweet and wholesome, should be on the table of every family, as an agreeable substitute for sour bread or for variety in the way of palatable food they are exceedingly desirable. On hand at 91 Liberty street or to be obtained at any of the grocery stores.

We cannot understand why people should any longer buy the miserable preparations advertised as hair restorers, when the Alsana, which is really the finest article for the hair in use, can be procured for so reasonable a price as one dollar a bottle.

Ladies, owing to the peculiar state of the air surrounding them, require the use of Milk of Violets to whiten as well as brighten their complexion, without the least injury. Sold by all druggists. V. W. Brinckerhoff, N. Y., sole agent for America.

Electro-Plating.

This, one of the most difficult arts to master, has been established on a broad basis in this city within a recent date. Without attempting to explain the process, we will merely allude to the result displayed in the establishment of the Pittsburgh Silver-Plating Company, No. 1 Sixth street, near the Suspension bridge, where we examined a variety of plated ware, embracing Spoons, Forks, Tea Pots, Urns, Cream Pitchers, Ice Pitchers, Watch Cases, Chains, etc., etc. Some of the specimens presented an antique appearance. These we were inclined to favor supposing them to be the latest styles. Imagine our surprise upon learning that the articles were brought to the establishment to be re-plated! Some of the articles were upward of thirty years old, and had been in constant wear, but to look at them as they stood on the counter, they vied in brilliancy with the best in our jewelers' windows. The cost of replating is not nearly as great as we imagined, and in this establishment it is done to perfection.

The best and Original Tonic of Iron, Phosphorus and Calisaya, known as Caswell, Mack & Co's Ferro Phosphorated Elixir of Calisaya Bark. The Iron restores color to the blood, the Phosphorus renews waste of the nerve tissue, and the Calisaya gives a natural healthful tone to the digestive organs, thereby curing dyspepsia in its various forms, Wakefulness, General Debility and Depression of Spirits. Manufactured only by Caswell, Hazard & Co., New York. Sold by all druggists. F
